| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | "Elizabeth Stanton's Great Big World" addresses areas of particular concern to young teens; including global, social, educational, and wellness issues. Elizabeth and select celebrity friends travel around the world volunteering in areas of specific need. "Elizabeth Stanton's Great Big World" combines exciting, fun, and diverse experiences of world exploration with life-changing volunteer opportunities. Various age-appropriate global issues are introduced to the viewing audience through in-depth and thoughtful interviews. In addition, Elizabeth and friends' personal hands-on experiences in the field both inspire teens in selfless, helping behaviors, and educate them on where and how to find volunteer opportunities. (This program aired on the station's main digital stream). |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Think Big is a kid-hosted entertaining series for young people following the world's most innovative kids as they create and invent new toys, games, learning tools, websites and new modes of transportation. It features top kid inventors who face off against each other in an Invent-off to see who can come up with the most innovative and creative invention. Each episode is set in the Think Tank, a studio filled top to bottom with art supplies and construction materials. Two teams, led by a Featured Inventor, brainstorm, choose materials, and then sketch, design and build their idea. Once completed, the competing inventions are presented to a judge. The best invention wins bragging rights and the coveted Genius Cup. In Think Big, kids acquire and showcase their skills in creativity, science, innovation, marketing, design and teamwork. (This program aired on the station's main digital stream). |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | The key objective of this program is to familiarize children with the animals of the North American continent, their interaction with other animals and their environment. Throughout the series emphasis will be place upon protecting endangered species and the impact that humans have while interacting in their environment. The goal of this program is for the viewer to achieve a greater understanding of nature and specific animal species with the aid of up close and detailed photography throughout the program. Through this understanding it is hoped that viewers will better relate to the natural environment as its exists in North America and learn to protect North America's animal species. (This program aired on the station's main digital stream). |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Four teens from very different backgrounds all taking riding lessons at a very unusual riding stable where the animals all speak to each other. The teens deal with accepting responsibility, developing self-confidence, self-esteem and caring for their mounts. They also are confronted with problems that test their honesty, integrity and sometimes even their friendship. As they work to find solutions, the animals make comments on what the teens should or should not do or how they are handling the particular situation, giving the viewer a new insight to dealing with the issue. Through the four characters and the dialogue of the animals the viewers are shown clear prosocial education messages. (This program aired on the station's secondary digital channel 26.2). |

| Age of Target Child Audience | 2 years to 5 years |
| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | This animated series is based on the books by Richard Scarry. The fictional city Busytown is an enchanting place that's abuzz with energy and life. Episodes are divided into multiple segments with different themes. The first and last segments involve the children in Busytown exploring their community. At the end of each segment the children have learned a little about their community and the world they live in. The middle segment shows children life in other cities featuring daily activities of adult characters in places such as Paris or Rome. Each episode includes two song segments in which the first, "Imagine That", teaches various things like general science to how banks work. The second song segment that teaches safety is called "Play it Safe". The aim of the series is to stimulate imagination and foster vicarious play, teach pro-social behavior (such as generosity, friendliness, persistence, altruism, understanding of others' points of view, empathy, acceptance of others' idiosyncrasies), help children move beyond family attachments to the world of friendships and community, help children develop skills on which academic learning depends such as attention, language, memory, active processing of a story and an interest in reading. (This program aired on the station's secondary digital channel 26.2). |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Think Big is a kid-hosted entertaining series for young people following the world's most innovative kids as they create and invent new toys, games, learning tools, websites and new modes of transportation. It features top kid inventors who face off against each other in an Invent-off to see who can come up with the most innovative and creative invention. Each episode is set in the Think Tank, a studio filled top to bottom with art supplies and construction materials. Two teams, led by a Featured Inventor, brainstorm, choose materials, and then sketch, design and build their idea. Once completed, the competing inventions are presented to a judge. The best invention wins bragging rights and the coveted Genius Cup. In Think Big, kids acquire and showcase their skills in creativity, science, innovation, marketing, design and teamwork. (This program will air on the station's main digital stream). |
