Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Astroblast!, based on the book series "Astroblast!" by author and illustrator Bob Kolar, is set on a space station in an unknown solar system. The station is populated by five animal characters and one 3-eyed octopus of unknown derivation. Each episode begins with an everyday conversation or incident that grows into a predicament of some sort needing a solution. While these predicaments take place on a space station populated by animal characters and aliens from different galaxies, the issues and resolutions resonate for a preschool audience. Through comedy and zippy action, our target audience sees how the characters learn lessons for practical living such as how to: keep track of things that belong to you, practice good habits, clean up a space when you've made a mess, rebound from a failure or embarrassing incident, or resist the urge to blame others for your mistakes. In compliance with the Children's Television regulations, "Astroblast!" features an on-air icon indicating that each program is "educational and informational" for children. This "E/I" icon is displayed throughout each broadcast, as well as identified to program listing services.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Lazy Town encourages fitness and healthful habits for preschool children. In the imaginary setting of Lazy Town, characters' eating and fitness habits are linked to problem solving in their world. The lead character is Stephanie, a young girl who guides the audience through the story as she and her friends ("human" puppets) and her Uncle (Mayor Milford Meanswell) navigate life within Lazy Town. Robbie Rotten, the underground spy and influencer who personifies the ethos of Lazy Town, is determined to ruin the health and fitness practices of Stephanie and her friends. When the kids have difficulty with Robbie Rotten, Sportacus (a gymnast/athlete prepared to answer any call for help) comes to the rescue from his home in a zeppelin-like aircraft that hovers over earth. The underlying themes of Lazy Town stress the importance of eating "sports candy" (aka fruits and vegetables), always obtaining sufficient sleep, and going outside to engage in a wide range of physical activities that include playing games, competing athletically, and even building forts and play structures. In compliance with the Children's Television regulations, "Lazytown" features an on-air icon indicating that each program is "educational and informational" for children. Wilmington, NC, was selected as the first United States television market to broadcast entirely in digital. This early transition took place on September 8, 2008. Being within the Wilmington, NC, market, WECT was one of the stations to take part in the early digital transition. On September 8, 2008, WECT ceased its analog signal and converted to digital. Since September 8, 2008 WECT has operated as a digital-only station. This FCC 398 was filled out based on the fact that WECT no longer has any analog programming. Therefore, question 10 reports all of our main digital channel programming, as well as our multi-cast digital channel programming. Also, since WECT ceased analog operations and converted to digital-only operations prior to the start of the reporting period, Questions 7(b) and 7(c) are no longer applicable. On 9/26/11, WECT's digital multi-cast channel changed from WECT Plus, to Bounce Wilmington. We added the Escape Channel as a second multicast channel. We went on the air with that channel (44.3) on 10/15/14 at 11am.
