Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Ruff-Ruff, Tweet, and Dave (RRTD) is a preschool adventure/activity show where the lead characters travel to faraway lands to have adventures with their guide, a hamster named Hatty. Ruff-Ruff, the dog, is the most playful of the three; Tweet is a little bird who loves to fly and get creative with her suggestions; and Dave the Panda has a thing for bananas. RRTD might go to the beach, or the mountains, or to strange lands with pillows everywhere; just the sort of place where imagination and logic come together. The settings are always brightly colored and beautiful. And their transport vehicles are Roly-pods, artful go-carts that fit on a spiral ramp that folds in and out of the Spin-Again, a colorful round spinning top with special compartments designed to anchor each vehicle right on the outside rim during the journey.

She wins over her new friends, Ziggy, Stingy, Trixie and Pixel, convincing them to leave their gaming consoles and candy stashes at home so they can go outside and play. She persuades her uncle, Mayor Milford Meanswell, and his friend Ms. Busy Body to support her efforts. Robbie Rotten, who lives underground, and is determined to return Lazy Town to its former state of inactivity and quiet, constantly foils the characters' efforts. Coming to the rescue is the athlete Sportacus who lives in a zeppelin-like aircraft and receives signals from the kids or the Mayor whenever they need help. Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Americans are famously terrible about geography. The last Roper Geographic Literacy Poll (2006) showed only half of young Americans could identify New York State on a map. Less than that could find Ohio. Perhaps part of the problem was that there was no television program that entertained while educating about the nation's states. There is now. STATE TO STATE from Bellum Entertainment blends maps, history, and facts with eye-catching visuals and clever narratives that move quickly through some of the very interesting geography in our diverse country. Target audience for tone, program content, and learning concepts: middle and high school (ages 13-16).

CAREER DAY is a nationally-syndicated TV show from Entertainment Studios, Inc. that inspires viewers, young and old, but mainly teens, to pursue the career of their dreams. Produced by Executive Producer Lisa-Renee Ramirez, winner of 16 Emmys, and Associate Producer Leslie Gant, the half-hour TV series explores a variety of interesting careers - some traditional and some outside the box, in each episode. "Career Day" could explore what it takes to become a fashion designer, a brain surgeon, a marine biologist, and maybe even a racecar driver. Most recent episodes showcased a video game producer and two comedic jugglers. Episodes are highly entertaining and do the best to capture a "day in the life" of the person's career.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Americans are famously terrible about geography. The last Roper Geographic Literacy Poll (2006) showed only half of young Americans could identify New York State on a map. Less than that could find Ohio. Perhaps part of the problem was that there was no television program that entertained while educating about the nation's states. There is now. STATE TO STATE from Bellum Entertainment blends maps, history, and facts with eye-catching visuals and clever narratives that move quickly through some of the very interesting geography in our diverse country. Target audience for tone, program content, and learning concepts: middle and high school (ages 13-16).
