Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	An action comedy about a boy who transforms into the world's smallest superhero to fight microscopic villains too small for the naked eye! In the micro-cosmos, the tiny world of cells, molecules and atoms, a battle of good versus evil rages as each week Nanoboy (Oscar), tinier than the average cell takes on bad-to-the-bone-bacteria--while trying to survive the biggest challenge of all... being a 10-year-old! Oscar solves conflicts like peer pressure, and exam stress in the one world; and encounters bigger-than-life problems--deranged proteins and Amazonian amoebas, and w/the help of his Nano-team reforms a flu virus and a goofy brain cell. In resolving these crimes in the micro-world, Nanoboy encounters solutions that he can bring back to solve human world problems.
