Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	AWESOME ADVENTURES is a syndicated adventure travel show for tweens and teens that highlights topics like sports, animals, and music. Accompanied by host Anthony Montgomery (Star Trek: Enterprise), in each episode a pair of teens hikes, bikes, parasails, and even sometimes rafts through exotic locales like Costa Rica, Iceland, and Belize. Using these beautiful countries as a backdrop, Awesome Adventures educates viewers about geography, zoology, history, and world culture through fun action-adventure segments. The overall tone of the show is very light and quite silly at times, but that's usually due to Montgomery's goofball antics.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Young, enthusiastic and passionate about food, Claire Thomas is the 22 year old host who opens viewers' eyes to how everyday life can inspire culinary creations in Food for Thought. Each weekly-half hour, produced for ages 13-16, informs and educates teens about the power of food as a tool for exploring new places, meeting new people and learning about different cultures. Claire serves as a role model for 13-16 year old viewers by showing her passion for her family, life, and healthy living by sharing stories in the kitchen. Creative inspiration can come from any place at any time - sometimes from family, sometimes from friends, or even from bloggers needing her help. No matter how exotic or local the location, she's always in search of new tastes and places to explore. Based on her unique perspective gathered throughout each episode, Claire will teach the audience how to prepare the "inspired" dish while promoting a healthy attitude towards food and life.
