Describe the educational and informational objective of the program and how it meets the definition of Core Programming.

Chronicling the adventures of Dr. Chris Brown, DR. CHRIS PET VET allows viewers unique insight into the life of one of the world's busiest vets and the animals that he treats. For those animals that require specialist services, Dr. Chris calls on his good friend and colleague Dr. Lisa Chimes, who works at a small animal specialist hospital. The show usually consists of three segments, following the doctor as he treats various animals that are in trouble and offering the viewer opportunities to understand the challenges a veterinarian daily faces. The series focuses on how the doctor investigates the individual problem and tries to develop solutions that on the surface would seem confounding to the viewer. As such the show not only offers a view into careers in and responsibility for taking care of pets, but also into problem solving strategies and behaviors. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules.

This program follows renowned veterinarian Dr. Chris Brown as he embarks on an extraordinary journey, introducing young people to countries, cultures, flora and fauna around the globe. Acting as part observer, traveler and animal expert, Dr. Chris serves as a personal guide to and interpreter of each destination?s unique lifestyles, history and traditions. In addition, as an expert in the field of veterinary sciences, Dr. Chris offers unusual insights into animal behavior as well as the preservation of endangered species. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The half hour weekly series, Ocean Mysteries, offers a fresh approach to the quest for aquatic understanding by blending stories of fascinating sea creatures, comparisons to popular land animals, and analogies to human experience. Hosted by Jeff Corwin, Ocean Mysteries is produced for ages 13-16 and beyond by showing how animals share the same behaviors, challenges and triumphs that humans do. From exciting rescues of abandoned animals to unexpected conflicts in the family dynamics of the mingling species, viewers will get to know and care about these heroes, and all of the fascinating life teeming in our oceans.

Brain Games: Family Edition is a weekly half-hour series that explores the fascinating components of the human brain and how they shape our perceptions and everyday lives. Produced for children aged 13-16, Brain Games: Family Edition's host Jason Silva opens each episode with an exercise for your mind which will often leave you scratching your head. These exercises will serve as a jumping-off point for a deep dive into the reality of human perception and the fascinating ways that our brain functions. Each week, Host Jason Silva will explore a variety of different topics including visual perception, memory, skill learning, decision making, and many more. Brain Games: Family Edition educates and inspires viewers by presenting a series of experiments and activities designed to help people improve cognitive function and use their brains better, smarter and faster.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming. Does the Licensee identify the program by displaying throughout the program the symbol E/I?

Dog Town, USA is produced for ages 13-16 and will inspire young people to pursue their dreams while valuing the importance of dedicating oneself to the greater good of community and family. The series demonstrates the powerful interaction between humans and animals with a focus on our canine companions. Dog Town, USA educates and informs the audience about canine training techniques and creating healthy environments for dogs. Dog Town, USA's trained experts teach teen viewers how to be a responsible pet owner and maintain a safe and healthy lifestyle for both family and pet. Viewers will get to know - and care - about these dogs and the heroes who do whatever it takes to give them a second chance.
