Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	A significant purpose and key educational objective of this program is to teach young children all there is to know about life science. Each episode tackles a dozen or more mind-blowing and interesting questions concerning animals and their habitat. The show is a standard question and answer format to help test how much young people really know. The investigation of the answers takes viewers on a fast-paced and entertaining tour of the amazing animal kingdom. The show explains every answer so that young viewers are able to retain and understand the information provided. The Network preempted this children's program to broadcast the 2013 Formula One World Championship. This motor racing championship is recognized by the sport's governing body, the Federation Internationale de l'Automobile (FIA), as the highest class of competition for open-wheel racing cars.

Origination	Syndicated
Days/Times Program Regularly Scheduled	SUN 8:30AM
Total times aired at regularly scheduled time	13
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Produced specifically for the 13-16 demographic, this is an animal series with a uniquely scientific approach. While most animal shows look at the behavior of animals, Xploration Animal Science goes one step further to look at how and why an animal is able to excel in its environment. This series uses animation, graphics, and scientific analysis from animal experts to give viewers more understanding than ever before of these amazing creatures. A series that all animal lovers will watch and learn from.
