| Describe the<br>educational and<br>informational<br>objective of the<br>program and how it<br>meets the definition<br>of Core<br>Programming. | With its travelogue format, compelling backstories and upbeat young narrator, the Travel Thru History series entices young adults to learn more about American history. The various episodes focus on American cities and vacation destinations that have more than natural beauty and theme parks to offer. The series uses beautiful photography and brief well-edited interviews with curators and other on-site authorities, as well as graphics, vintage photos, and film footage, to set a pace that will keep a busy young mind engaged. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Safari provides core programming in the areas of global ecology, wildlife biology and species conservation and preservation. Emmy award-winning host and wildlife expert John Ross travels to the farthest reaches of the world to bring the viewers face to face with some of the planet's most interesting animals. Safari offers a dynamic television experience for teens - with the exciting experience of exploring the fascinating world of wildlife and at the same time discovering what needs to be done to protect the animals and their habitat so that they can live on in the wild. Various age-appropriate global wildlife and ecology issues are introduced to the viewing audience with in-depth and thoughtful explanations. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | With its travelogue format, compelling backstories and upbeat young narrator, the Travel Thru History series entices young adults to learn more about American history. The various episodes focus on American cities and vacation destinations that have more than natural beauty and theme parks to offer. The series uses beautiful photography and brief well-edited interviews with curators and other on-site authorities, as well as graphics, vintage photos, and film footage, to set a pace that will keep a busy young mind engaged. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. |  | This series highlights many issues that face today's teens in school. It's the ultimate learning experience for kids who swap roles with the teachers--and both students and teachers better understand what it means to be the other. The teen students learn how difficult it is for teachers today while teachers get a lesson in being students. This unusual role-reversal teaches kids and adults important differences and the episodes address concerns each has with the other.        |
