| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. |  | Parents need to know that Sea Rescue is a fascinating look at ocean animals in distress and the professionals who help them, but the images of animals with injuries or in danger can be disturbing to young or sensitive viewers, though no gore or blood is shown. The ideas of conservation and taking care of animals is a strong theme, and the workers and volunteers who help the distressed animals are great role models. The show does serve as a backdoor commercial for SeaWorld, who produces the show, so kids might be inclined to ask for a visit after watching. |
