Digital Core
Programming

Question	Response
State the average number of hours of Core Programming per week broadcast by the station on its main program stream	
State the average number of hours per week of free over-the-air digital video programming broadcast by the station on other than its main program stream	
State the average number of hours per week of Core Programming broadcast by the station on other than its main program stream. See 47 C.F.R. Section 73.671:	
Does the Licensee provide information identifying each Core Program aired on its station, including an indication of the target child audience, to publishers of program guides as required by 47 C.F.R. Section 73.673?	
Does the Licensee certify that at least 50% of the Core Programming counted toward meeting the additional programming guideline (applied to free video programming aired on other than the main Yes No program stream) did not consist of program episodes that had already aired within the previous seven days either on the station's main program stream or on another of the station's free digital program streams?

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Eco Company provides CORE programming in the area of the environment and preservation of the earth's resources. Eco Company explores all aspects of being "green" and understanding how our actions impact the world. The E-Co team learns about global warming by asking questions to discover the truths and myths of the global warming issue. They learn about alternative energies by visiting wind farms and solar installations and discovering new energy technologies currently under development. They learn more about recycling, conservation and organics. The E-Team profiles teens and school organizations who have taken it upon themselves to make a difference, young entrepreneurs who are taking their passion for green to develop new ideas, and new products for a sustainable future. Most importantly, each story and each feature is reported by teens and told from their perspective. Additionally the show provides weekly practical tips that teens, and people of all ages can use in their daily lives. Eco Company uses the technique of peer reporting. The diverse and dynamic cast of teens who make up Eco Company combine their natural curiosity with their enthusiasm to report the informational stories to teens and their families. Each episode employs Eco Company "members" or hosts who conduct interviews of peers and adults, and experience first hand the demonstration and explanation of the topic. Our Eco Company website can be easily accessed by parents and provides a clear description of the program and types of topics covered. It also provides a listing of the weekly episodes and topics aired on broadcast stations through the USA. Advanced notice of future episodes will also be available to parents and consumers by the website. This program is from the Retro Television Network (RTV).

Length of Program	30 mins
Age of Target Child Audience	3 years to 6 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Wild America is targeted to children ages 13-16. The key educational objective of the program is to familiarize children with the animals of the North American continent and their interaction with other animals and their environment. Throughout the series emphasis will be placed upon protecting endangered species and the impact that humans have while interacting in their environment. Each episode of the series will be specific to a particular animal. Topics will range from basic food gathering, mating, natural enemies, relationships to other animals, and the interaction of the specific ecology on the survival of the species. We expect the children viewing the program will achieve a greater understanding of nature and specific animal species because of the up-close and detailed photography of the series. Through this understanding, it is hoped children will better relate to the natural environment as it exists in North America and learn to protect its natural species. This program is from the Retro Television Network(RTV).
