| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | The first kid-to-kid newscast, created for and delivered by children. Hosted by a diverse news team made up of young "journalists" reporting from a professional news set and from the field on stories of interest and educational value to its own audience. Family Viewing program environment aimed at kids 13-16 and Tweens watching along with their parents, particularly moms. Cast of approximately 6 on-air kids selected from top young professionals in the New York metropolitan area with major acting credits. Emphasis on diversity and experience to develop a cast of engaging and intelligent African-American, Hispanic, Asian and Caucasian Asian male and female child actors who interact with each other-and connect to the viewers. Meets the need of children whose sophistication and curiosity about their world is motivated by the information explosion. They have the interest. They have opinions. But they also have a healthy skepticism about adult explanations, which tend to be either condescending or overly complex. |
