Digital Core  
Programming

Question	Response
State the average number of hours of Core Programming per week broadcast by the station on its main program stream	3.0
State the average number of hours per week of free over-the-air digital video programming broadcast by the station on other than its main program stream	0.0
State the average number of hours per week of Core Programming broadcast by the station on other than its main program stream. See 47 C.F.R. Section 73.671:	0.0
Does the Licensee provide information identifying each Core Program aired on its station, including an indication of the target child audience, to publishers of program guides as required by 47 C.F.R. Section 73.673?	Yes
Does the Licensee certify that at least 50% of the Core Programming counted toward meeting the additional programming guideline (applied to free video programming aired on other than the main Yes No program stream) did not consist of program episodes that had already aired within the previous seven days either on the station's main program stream or on another of the station's free digital program streams?	Yes

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Animal Exploration with Jarod Miller is a half - hour live action television program designed to meet the educational and informational needs of children. Each week Jarod looks at exotic and domestic animals from his own unique perspective. Every week Jarod travels to zoos and aquariums to explore animals that fit a particular theme, whether it's the need for speed or animal heroes - there's always something amazing happening. Filled with energy, youth and humor, Jarod is a welcome visitor in living rooms around America on a weekly basis. It is the mission of this program to inspire viewers, children and adults alike, to preserve the innate human instinct to explore. The producers design each episode to reveal to children the world around them in a way that identifies positive role models and pro-social values within an environmentally responsible universe.
Does the Licensee identify the program by displaying throughout the program the symbol E/I?	Yes

Program Title	Animal Atlas
Origination	Syndicated
Days/Times Program Regularly Scheduled	Saturday 1:30pm (main digital)
Total times aired at regularly scheduled time	12
Total times aired	13
Number of Preemptions	1
Number of Preemptions for other than Breaking News	
Number of Preemptions Rescheduled	1
Length of Program	30 mins

Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Animal Atlas is an entertaining and educational half-hour program that explores the world of animal wildlife, promoting a better understanding of how various animal species live and what they need to survive. With an entertaining narrative, the series combines focused examinations of certain topics such as "Animal Appetites" (which explores the various diets of animals along with information about how animals catch and eat their food, how diets determine their lifestyle, etc.), "Animal Antics", (a hilarious look at the crazy physical antics and talents of certain species), "Animal Babies" (an intimate look at babies of various species, how they are born, how they are raised and the difficulties and delights of growing up), along with shows which focus solely on certain animals such as elephants, bears, and monkeys. In these shows a thorough and entertaining exploration of the specific animal takes the viewer into that animal's world as we see where it lives, how it eats, how it plays, how the family unit operates, and what threatens and supports its survival. Animal Atlas also promotes responsibility toward wildlife issues by educating the viewer about endangered species and wildlife habits, as well as informing viewers how to support wildlife conservation.

Digital Core Program (5 of 8)	Response
Program Title	Cubix: Robots for Everyone
Origination	Network
Days/Times Program Regularly Scheduled	Saturdays, 7:00am (main digital, 1/1 - 2/12/11)
Total times aired at regularly scheduled time	7
Total times aired	10

Number of Preemptions	0
Number of Preemptions for other than Breaking News	
Number of Preemptions Rescheduled	1
Length of Program	30 mins
Age of Target Child Audience	6 years to 11 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	In order to best develop the skills and values that will produce "socially conscious" and productive future adults, fostering social and emotional competencies in our children is crucial. Social and emotional skills -- such as confidence, courage, loyalty, teamwork and problem solving -- provide an important knowledge base upon which appropriate behaviors can be developed. Imaginary environments provide children with a safe mechanism to witness these "pro-social" behaviors. Cubix provides just such a framework. The series tackles life scenarios that commonly affect children today. The educational objectives of Cubix include the reinforcement of ageappropriate interpersonal skills, the development of self-confidence, courage and personal responsibility. Cubix exposes children to these lessons within an entertaining, non-threatening imaginary environment. The Botties and their robots tackle personal and community adversities in creative story lines. Within this framework, children can see age-appropriate problem-solving strategies and learn to model the appropriate behavior. Through the Botties' experiences, viewers learn to overcome self-esteem and social competency issues, demonstrating to children that self-confidence, courage and resilience are necessary tools for problem solving and establishing good interpersonal relationships. Moreover, the characters inspire and promote altruistic behaviors, such as community participation, support, resilience, tolerance and leadership skills.

Length of Program	30 mins
Age of Target Child Audience	7 years to 12 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	For young people today, new information is generally no more than a mouse-click away. Knowledge is readily there for the taking if kids simply know how to appropriately access it and effectively make use of it. In this context, many of the most useful and important things that youngsters can learn center on discovery, analysis and problem-solving -- how do kids get the "right" information and make proper use of it. What questions should be asked? How does one assess veracity? How does one weigh alternatives? How are decisions best arrived at? How does one decide when aims can be accomplished independently, and if help is needed, how does one go about enlisting support? Above all, how can goals be achieved ethically and with regard to the greater good. In an enticing new world filled with excitement, mystery, and danger, "Magi-Nation" addresses these vital learning goals. Tony, Edyn and Strag along with their human and decidedly non-human colleagues model their successful, and sometimes less than successful, attempts to analyze difficult situations, set appropriate goals, and creatively seek solutions to the dire dilemmas in which they find themselves.
