Whaddyado, a half hour weekly series designed to educate, inform, inspire and entertain, does an exceptional job educating teenagers. The show's target audience is between 13 and 16 years of age, the time period when children are making the transition to becoming adults. Both theory and research demonstrate that this is the stage of life where children begin to experiment with who they are and who they want to be. It's a time which is typified by feeling invincible. This sense of invulnerability is commonly coupled with withdraw from parents and authority figures which leaves teenagers susceptible to poor decision making. Therefore, this time where insight and judgement are developing, but adult influence is limited, educational programming can make an immense impact on a child's decisions. Whaddyado provides an excellent opportunity for teenagers to learn life lessons they likely are otherwise not open to receiving.

Both theory and research demonstrate that this is the stage of life where children begin to experiment with who they are and who they want to be. It's a time which is typified by feeling invincible. This sense of invulnerability is commonly coupled with withdraw from parents and authority figures which leaves teenagers susceptible to poor decision making. Therefore, this time where insight and judgment are developing, but adult influence is limited, educational programming can make an immense impact on a child's decisions. Whaddyado provides an excellent opportunity for teenagers to learn life lessons they likely are otherwise not open to receiving.
