Digital Core  
Programming

Question	Response
State the average number of hours of Core Programming per week broadcast by the station on its main program stream	3.0
State the average number of hours per week of free over-the-air digital video programming broadcast by the station on other than its main program stream	168.0
State the average number of hours per week of Core Programming broadcast by the station on other than its main program stream. See 47 C.F.R. Section 73.671:	3.0
Does the Licensee provide information identifying each Core Program aired on its station, including an indication of the target child audience, to publishers of program guides as required by 47 C.F.R. Section 73.673?	Yes
Does the Licensee certify that at least 50% of the Core Programming counted toward meeting the additional programming guideline (applied to free video programming aired on other than the main Yes No program stream) did not consist of program episodes that had already aired within the previous seven days either on the station's main program stream or on another of the station's free digital program streams?	Yes

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The mission of 'Teen Kids News' is to produce a weekly news program that provides information and news to kids in a manner that is educational as well as highly entertaining. It is designed to appeal to the audience on its own level. The focus of the program is young people, always letting them tell their stories in their own words. The large, diverse news anchor team is unique in television and has great appeal for kids who identify and emulate them. The program serves the audience in a way that makes a real difference in their lives. It inserts the clear voice of the kid into the adult dominated media and provides a unique perspective to the news that is not currently available on network television. This program airs on the KING 5.1 main digital program stream.

Program Title	KING5 Healthlink Special: Health Innovations Impacting Kids Worldwide (KING 5.1)
Origination	Local
Days/Times Program Regularly Scheduled:	Thu, 7:30P (1.26.17)
Total times aired at regularly scheduled time:	1
Number of Preemptions	0
Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Seattle Children's is a leading medical facility in the Northwest, helping children in countless ways. It is also on the forefront of medical research, helping children around the globe. In this KING5 Healthlink Special, hosts Amity Addrissi and Jean Enersen showcase several new medical techniques and treatments that are making a difference, including a special device helping infants with palate deformities receive proper nutrition. See how immunotherapy is helping treat cancer, and potentially other diseases such as lupus and diabetes; meet two pediatric neurogeneticists from Seattle Children's who are unlocking new information about the zika virus and microcephaly. We also take a closer look at a new type of diet developed at Seattle Children's that is showing success for kids with IBD. This program aired on the KING 5.1 main digital program stream.

Saturday, 2.18.17, 7:30-8:00P, KING 5.1 re-aired 'A KING5 Healthlink Special: Health Innovations Impacting Kids Worldwide". BROADCAST ENHANCEMENT EFFORTS ON KING-DT 5.1 FIRST ALERT SCHOOL NET: More than 100 Washington schools (elementary, junior high and high school) are an important part of KING 5's weather reporting. The weather network consists of computerized weather stations located at schools that calculate wind speed, precipitation, temperature, and other basic weather information. These weather stations are on-line with KING 5's weather system and the National Weather Service, and provide the most accurate and current weather information available in Washington State. First Alert School Net reports are included in each KING 5 newscast. The School Net is of great educational benefit as a hands on learning opportunity. In the classroom, students use the weathernet stations to learn about weather metrics and incorporate meteorology into their science curriculum. They can bring weather forecasting to their own neighborhoods.</p>
