Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Aqua Kids provides a unique vehicle for young people to learn about the diversity of marine animals around the world, emphasizing the importance of preserving fragile aquatic habitats and encouraging children to take an active role in protecting the future of their community and the world. The program provides a window into the management and preservation of unique habitats and species through the eyes of kids and their hands-on collaboration with science researchers and educators. The messages delivered by Aqua Kids are given by a creative and resourceful host, Molly McKinney, whose scientific background is evident in the show. The other young hosts, whose ages range from pre-teen to late teens, are equally entertaining and informative. The young viewers identify with these young hosts and imagine themselves in the role of the scientist and as someone who could have a positive impact on the environment. The format of young student scientists presenting information on location in a variety of aquatic settings is both entertaining and informative.
