| Program Title | Xploration Awesome Planet (9.1) |
| Origination | Syndicated |
| Days/Times Program Regularly Scheduled | Mondays @ 8:00 AM (4/3 - 6/26) |
| Total times aired at regularly scheduled time | 13 |
| Total times aired | 13 |
| Number of Preemptions | 0 |
| Number of Preemptions for other than Breaking News | 0 |
| Number of Preemptions Rescheduled | 0 |
| Length of Program | 30 mins |
| Age of Target Child Audience | 13 years to 16 years |
| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Produced primarily for the 13-16 target audience, Xploration Awesome Planet will inspire and educate anyone interested in earth sciences. Our host, Philippe Cousteau, the grandson of legendary Jacques Cousteau, brings boundless energy to every location we visit. From magnificent mountains to violent volcanoes, this program takes an in-depth look at the unique and distinct features on planet Earth. We not only visit gigantic glaciers and behold their beauty but also discover why they formed, and how they shaped our landscape. Geological experts share their wisdom with Philippe, as we strive to understand places on the earth, inside the earth, and above the earth. |

| Age of Target Child Audience | 13 years to 16 years |
| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Produced primarily for the 13-16 target audience, Xploration Nature Knows Best will inspire and educate audiences of all ages. Host and Marine Biologist, Danni Washington, exudes energy as she relates how current technology was inspired by nature, and how modern innovators are continuing with this practice. We will whirl around in airplanes inspired by birds, and in helicopters influenced by the dragonfly, and even jump from a few such vehicles to illustrate how wingsuits were invented based on the flying squirrel! But engineers aren't the only scientists looking toward nature. We will also meet with biologists studying the behavior patterns of ants, architects who design "living buildings," and roboticists who are making their designs stronger based on animals. This series will show kids how understanding nature can help them make the next great discovery. After all, nature knows best! |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | This new half-hour weekly series produced for the 13-16 target audience will certainly attract viewers of all ages. Each week our host Emily Calandrelli will take viewers on incredible journeys through space that will both entertain and educate. Ever wonder what it would be like to live in space or on a different planet? Watch our host try to perform every day responsibilities while floating in zero gravity. Explore the challenges that come along with living on a different planet as our host lives like an astronaut in a Mars-like habitat. We will have episodes on space robotics, commercial space tourism, asteroids, and our search for life, among many others. When appropriate, the host will highlight NASA related programs and internships for young students that are relevant to the content we have shown. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | This live action series (based on the comic strip You Can with Beakman by Jok Church) proves that learning about science and nature can be fun and fascinating. Performance artist Paul Zaloom stars as the slightly nutty but never boring scientist whose answers to kids' questions reveal the relationships between principles of science and nature and how they impact our daily environment. Topics are addressed with cutting-edge humor and state-of-the-art visuals designed to make learning fun. Joining Beakman in his quest onward for science are Josie (Alanna Ubach), his bright young apprentice, and an oversize, sarcastic rat named Lester (Mark Ritts). Watching the show on their South Pole TV set are penguins Herb and Don, a cynical duo who provide comments and quips as Beakman struts his scientific stuff. |
