| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | In each episode the cameras follow Jack Hanna as he spends time with nature's creatures across the continents. Jack talks with people that are knowledgeable about each animal and habitat, teaching as he goes. Each episode is designed to reveal to children the world around them in a way that presents positive role models and pro-social values within an environmentally responsible universe. Jack conveys a sense of hand-on, experiential learning that is essential to a positive learning process. His enthusiasm for the animals is contagious and his content is informative without the audience feeling that they are being "taught." The show offers its young audience the opportunity to understand our environment, particularly the delicate balance between nature and development. As a result, viewers can develop the ability to make decisions on environmental issues and take responsible action on behalf of the environment. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Young, enthusiastic and passionate about food, Claire Thomas is the host who opens viewers' eyes to how everyday life can inspire culinary creations in FOOD FOR THOUGHT. Each episode informs and educates teens about the power of food as a tool for exploring new places, meeting new people and learning about different cultures. Claire serves as a role model for 13-16-year-old viewers by showing her passion for her family, life, and healthy living by sharing stories in the kitchen. Creative inspiration can come from any place at any time - sometimes from family, sometimes from friends, or even from bloggers needing her help. Based on her unique perspective gathered throughout each episode, Claire will teach the audience how to prepare the "inspired" dish while promoting a healthy attitude towards food and life. Clare shops for her ingredients and shows viewers how to look for good buys. She also explains what the essentials are for a beginner kitchen. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Young, enthusiastic and passionate about food, Claire Thomas is the host who opens viewers' eyes to how everyday life can inspire culinary creations in FOOD FOR THOUGHT. Each episode informs and educates teens about the power of food as a tool for exploring new places, meeting new people and learning about different cultures. Claire serves as a role model for 13-16-year-old viewers by showing her passion for her family, life, and healthy living by sharing stories in the kitchen. Creative inspiration can come from any place at any time - sometimes from family, sometimes from friends, or even from bloggers needing her help. Based on her unique perspective gathered throughout each episode, Claire will teach the audience how to prepare the "inspired" dish while promoting a healthy attitude towards food and life. Clare shops for her ingredients and shows viewers how to look for good buys. She also explains what the essentials are for a beginner kitchen. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | "Animal Atlas" is an entertaining and educational half-hour wildlife program shot exclusively in High Definition. The show introduces young viewers to every kind of animal imaginable, from the familiar to the astounding, including apes and giant lizards, sharks and tigers, and all other animals from the Americas, Africa, Asia, Australia, and everywhere in between. Animal Atlas promotes a better understanding of how various animal species live and what they need to survive. Each episode stands alone as an entertaining look into the world of animals- whether visiting a particular group of animals, such as big cats, or meeting the animals of an entire continent. Through Animal Atlas, viewers discover the variety of places that animals live, how they find food, and how they play. The show also looks at how family units operate, from a community of thousands of prairie dogs, to a pride of lions, to a school of fish. Certain episodes also explore animal features such as diet, locomotion, adaptation, and how animals take care of their young. Along the way, Animal Atlas educates young viewers about endangered species and provides information on how to support wildlife conservation. For a population of young viewers attuned to the importance of going "green," Animal Atlas is not only entertaining, it is culturally relevant and important. Animal Atlas offers an incredible and wildly entertaining adventure through the animal world. Learning about animals has never been more fun! Just spin the globe. Anywhere, everywhere animals live, you'll find Animal Atlas. |
