Include any other comments or information you want the Commission to consider in evaluating your compliance with the Children's Television Act (or use this space for supplemental explanations). This may include information on any other noncore educational and informational programming that you aired this quarter or plan to air during the next quarter, or any existing or proposed non-broadcast efforts that will enhance the educational and informational value of such programming to children. See 47 C.F.R. Section 73.671, NOTES 2 and 3.	The two programs listed in the Non-Core section of the report met all requirements of CORE programming except the episode lengths were less than 30 minutes. However, these programs were broadcast as part of contiguous block of scheduled Children's Programming that exceeded 30 minutes duration, which the licensee believes meets the FCC's intent in requiring that CORE programming is at least 30 minutes in length. Channel 18.9 was off the air after August 31, 2017
