Digital Core  
Programming

| Question                                                                                                                                                                                                                                                                                                                                                                                                                  | Response |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|
| State the average number of hours of Core Programming per week broadcast by the station on its main program stream                                                                                                                                                                                                                                                                                                        | 3.5      |
| State the average number of hours per week of free over-the-air digital video programming broadcast by the station on other than its main program stream                                                                                                                                                                                                                                                                  | 336.0    |
| State the average number of hours per week of Core Programming broadcast by the station on other than its main program stream. See 47 C.F.R. Section 73.671:                                                                                                                                                                                                                                                              | 7.0      |
| Does the Licensee provide information identifying each Core Program aired on its station, including an indication of the target child audience, to publishers of program guides as required by 47 C.F.R. Section 73.673?                                                                                                                                                                                                  | Yes      |
| Does the Licensee certify that at least 50% of the Core Programming counted toward meeting the additional programming guideline (applied to free video programming aired on other than the main Yes No program stream) did not consist of program episodes that had already aired within the previous seven days either on the station's main program stream or on another of the station's free digital program streams? | Yes      |

| Describe the<br>educational<br>and<br>informational<br>objective of<br>the program<br>and how it<br>meets the<br>definition of<br>Core<br>Programming. | The key objective of this program is to familiarize children with the animals of the North American continent, their interaction with other animals, and their environment. Throughout the series, emphasis is placed upon protecting endangered species and the impact that humans have while interacting in their environment. The goal of this program is for the viewer to achieve a greater understanding of nature and specific animal species, with the aid of up-close and detailed photography throughout the program. Through this understanding, it is hoped that viewers will better relate to the natural environment in North America and learn to protect North America's animal species. This program aired on the station's main digital stream. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Supported by a team of Georgia Aquarium biologists, veterinarians, and other experts, Jeff Corwin travels the world to explore the Earth's least understood resource, our oceans and waterways and the animals which call them home. He swims with manta rays, pointing out that their body form was the inspiration for the design of the Stealth jet. While in the water with whale sharks, he takes samples of their blood to better understand their biology. As Jeff continues his journey through each episode, the viewer is able to connect with these animals and learn how important they are to all life on the planet, as well as how sea life connects to life on the rest of the globe. This program aired on the station's main digital stream. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | This program demonstrates how the brain processes information relating to topics like competition, food and language. Interactive games and hidden-camera experiments capture hilarious and surprising results. Children will learn real-world takeaways about their brains to use in everyday life. This program aired on the station's main digital stream. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Wildlife expert Casey Anderson showcases his charismatic animal companions on an innovative and action-packed odyssey through North America's wild places. Through this program, viewers will have a rare glimpse into the beauty and complexity of the natural world. Viewers will follow Casey on a series of adventures, such as paddling the Grand Canyon, skiing with wolverines in British Columbia, observing mountain lions in Montana, staking out the scavengers of Yellowstone, investigating a raven's nest, observing polar bears on Alaska's northern slope, and climbing rugged extremes in pursuit of Maine's black bears. These adventures will bring the viewer a rare experience with endangered species - some deadly, others dashing, in the stunning natural ecosystem they call home. This program aired on the station's main digital stream. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Dog town follows the stories of orphaned, unwanted, or problem dogs who find their way to Best Friends Animal Society. They are each rehabilitated by volunteers and employees for adoption or spend the rest of their lives in foster care at the Dogtown facility. Viewers learn the proper treatment of animals, volunteerism and social responsibility. Episode examples include rescuing dogs from a puppy mill, and the staff launching a new program to turn shelter dogs into search and rescue dogs. This program aired on the station's main digital stream. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | This program uses favorite, high calorie family recipes submitted by viewers as the basis of a face-off with two acclaimed chefs. Each chef must take a recipe and give a low calorie twist, demonstrating that foods don't have to be high in calories or fats to be delicious. As the chefs work through the challenge, the viewers will learn the value of healthy, wholesome ingredients, and how healthy food choices can have a positive effect on our quality of life. This program aired on the station's main digital stream. |
| Does the Licensee identify the program by displaying throughout the program the symbol E/I?                              | Yes                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | This program features how teens can successfully pursue their entrepreneurial dreams. Each week, a team of business leaders teaches basic but critical skills needed to execute a detailed business plan that includes product pricing, packaging, marketing and investment strategies. Hatched helps teens develop confidence and business savvy and brings young entrepreneurs to the table encouraging them to step up and seize their dreams. This program aired on the station's main digital stream. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | This educational and informational program is hosted by animal expert and wildlife park operations manager, Tim Faulkner. Viewers can watch and learn as Tim showcases the beauty and wonder of the natural world. Audiences will gain a better understanding of wildlife as Tim explores the habitats and adventures of creatures of all sizes, including a giant Galapagos tortoise, a baby wombat, the flying fox, and even a newly discovered species of birds. This program aired on the station's main digital stream. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | This program is a children's travel program featuring the natural geographic wonders, indigenous cultures, native wildlife and unique adventures of Australia and other surrounding countries as seen and experienced through the eyes of youth. Filmed on location, Boomerang's young hosts share their first-hand discoveries by conducting interviews, taking unusual tours, and designing their adventures based on viewers' special requests. Children learn geography, exposure to other cultures and appreciation for the world in which they live. Episode features include: meeting the world's oldest dog, exploring Mayan pyramids of southern Mexico, and traveling to a tiny island in the Timor Sea to visit a family who lives there. This program aired on the station's secondary digital stream, WRDC 28.2. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | This program features true stories of exceptional men, women and children making a difference across the United States. From highly trained professionals to ordinary citizens selflessly putting themselves in harm's way, the program celebrates the heroes in our nation today while going one step further, and teaches children key response behaviors critical to overcoming every day, unforeseen dangers. Episode examples include: a boy who displays courage and strength in his battle against cancer; a child who saved his entire class from certain catastrophe when a bus driver slipped into unconsciousness; dogs who bring joy to the mentally challenged; and, scouts who rally to save a hiker who falls from a mountaintop. This program aired on the station's secondary digital stream, WRDC 28.2. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | This program features close-up exploration into the world of wild animals living around the world. There is a special focus on the importance of habitat conservation as well as an emphasis on protecting endangered species which teaches children care and stewardship of the planet. Episode examples include: how humans have affected the tiger and elephant in India; how polar bears depend on their delicate habitat; and, how North American lynx only exist in one continent and are known to be one of the most reclusive animals in the world. This program aired on the station's secondary digital stream, WRDC 28.2. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | This program provides an in-depth understanding of wild animals from the unique viewpoint of Australian animal expert Rob Bredl who is known as the "Barefoot Bushman". Rob uses his skills to better understand the predatory behavior of the deadliest creatures. Children will learn an appreciation for the Australian continent with its unique and diverse wildlife, and a respect for the predator in nature. Animals featured include: feisty, cranky, wild Marsupial Carnivores; Box Jellyfish, Irukandji and Stonefish; and, the giant Amethystine python. This program aired on the station's secondary digital stream, WRDC 28.2. |          |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | This program explores the origin of hundreds of the world's most influential and important inventions, natural objects, customs, ideas from technology, arts and entertainment, government, nature and more. By teaching the history of the world's most significant ideas and creations, Origins gives children an appreciation of progress and the contributions of others while inspiring their own dreams of the future. Episode examples include: "The Horse, Bicycle and Motorcycle", three modes of solitary transportation that gave us freedom and adventure; and, "Clocks, Calendars & Calculators", three pivotal inventions that enable humankind to organize, plan and keep track of their lives. This program aired on the station's tertiary digital stream, WRDC 28.3. |
| Does the Licensee identify the program by displaying throughout the program the symbol E/I?                              | Yes                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Think Big is a kid-hosted entertaining series for young people that follows the world's most innovative kids as they create and invent new toys, games, learning tools, websites, and modes of transportation. The program features top kid inventors who face off against one another in an Invent-Off to see who can come up with the most innovative and creative invention. In each episode, two teams brainstorm, choose materials, and sketch and design their idea. Once completed, the inventions are then judged. This program allows kids to showcase their skills in creativity, science, innovation, marketing and teamwork. This program aired on the station's tertiary digital stream, WRDC 28.3. |
| Does the Licensee identify the program by displaying throughout the program the symbol E/I?                              | Yes                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | This program features children engaging in various science projects and demonstrates practical applications of mathematics and science from multiple scientific fields. It introduces young viewers to a variety of scientific disciplines and challenges them in critical thinking and problem solving skills, while providing valuable information to reach answers. Examples of program episodes include studying various ecosystems, sea turtles, and rocket propulsion. Each episode is engaging, entertaining and educational in structure, allowing children to gain an appreciation for science in a unique and entertaining way. This program aired on the station's tertiary digital stream, WRDC 28.3. |

| Include any other comments or information you want the Commission to consider in evaluating your compliance with the Children's Television Act (or use this space for supplemental explanations). This may include information on any other noncore educational and informational programming that you aired this quarter or plan to air during the next quarter, or any existing or proposed non-broadcast efforts that will enhance the educational and informational value of such programming to children. See 47 C.F.R. Section 73.671, NOTES 2 and 3. | WRDC aired approximately 3 hours of Kid related PSA's in this quarter. The PSA's were about such subjects as: Environment, education, crime, Health, and fitness. WRDC also gives station tours for school groups and scout troops. WRDC also produced Community Matters on MyRDC, a half-hour program that focuses on issues important to the local community. |

| Describe the<br>educational<br>and<br>informational<br>objective of the<br>program and<br>how it meets<br>the definition of<br>Core<br>Programming. | <p>The key objective of this program is to familiarize children with the animals of the North American continent, their interaction with other animals, and their environment. Throughout the series, emphasis is placed upon protecting endangered species and the impact that humans have while interacting in their environment. The goal of this program is for the viewer to achieve a greater understanding of nature and specific animal species, with the aid of up-close and detailed photography throughout the program. Through this understanding, it is hoped that viewers will better relate to the natural environment in North America and learn to protect North America's animal species. This program will air on the main digital stream.</p> |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Supported by a team of Georgia Aquarium biologists, veterinarians, and other experts, Jeff Corwin travels the world to explore the Earth's least understood resource, our oceans and waterways and the animals which call them home. He swims with manta rays, pointing out that their body form was the inspiration for the design of the Stealth jet. While in the water with whale sharks, he takes samples of their blood to better understand their biology. As Jeff continues his journey through each episode, the viewer is able to connect with these animals and learn how important they are to all life on the planet, as well as how sea life connects to life on the rest of the globe. This program will air on the main digital stream. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Dr. Jan Pol is a veterinarian who specializes in large farm animals. Having more than 19,000 clients, Dr. Pol has "seen it all." This series is designed to educate and inform viewers as Dr. Pol, his family, and veterinary staff share their experiences caring for animals of all shapes and sizes across rural Michigan. Viewers will have the opportunity to learn about the biology and behaviors of various domesticated animals and livestock. This program will air on the main digital stream. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | This educational and informational program is hosted by animal expert and wildlife park operations manager, Tim Faulkner. Viewers can watch and learn as Tim showcases the beauty and wonder of the natural world. Audiences will gain a better understanding of wildlife as Tim explores the habitats and adventures of creatures of all sizes, including a giant Galapagos tortoise, a baby wombat, the flying fox, and even a newly discovered species of birds. This program will air on the main digital stream. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | This program features how teens can successfully pursue their entrepreneurial dreams. Each week, a team of business leaders teaches basic but critical skills needed to execute a detailed business plan that includes product pricing, packaging, marketing and investment strategies. Hatched helps teens develop confidence and business savvy and brings young entrepreneurs to the table encouraging them to step up and seize their dreams. This program will air on the main digital stream. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | This program is based at the world famous San Diego Zoo and focuses on showing how zoo enrichment programs help animals initiate natural behavior. This program teaches children about animal behavior and the importance of providing an enriching environment for animals in our care. This program will air on the station's secondary digital stream, WRDC 28.2.                                                                                                                                                                                                                                                                                                              |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | This program follows hosts Matt Hunter and Jeremy MacPherson as they take original patent designs from history's lost inventions and build them, test them, and try to make them work. From a snow annihilator from the 1930s to a Chinese dragon rocket over 600 years old to a solar powered crematorium, Matt and Jeremy take viewers through the strange and entertaining world of invention. Each episode introduces children to a variety of scientific disciplines and challenges them in critical thinking and problem solving skills, while providing valuable information to reach answers. This program will air on the station's secondary digital stream, WRDC 28.2. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | This program explores all types of wild animals in their own environment and how they survive. Children learn about and develop a respect for animals within their natural habitat and learn why some animals may be on their way to extinction. Each episode provides detailed explanations of different animal species and helps children understand the animals' daily lives. This program will air on the station's secondary digital stream, WRDC 28.2. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | This program is based at the world famous San Diego Zoo and focuses on showing how zoo enrichment programs help animals initiate natural behavior. This program teaches children about animal behavior and the importance of providing an enriching environment for animals in our care. This program aired on the station's tertiary digital stream, WRDC 28.3. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | This program strives to answer questions about where advancements in science, technology, engineering, and mathematics may lead us in the future. Scientists, inventors, doctors, science fiction writers, and creative thinkers add their input about what the world may look like in 2050. Viewers are taken on an educational adventure as the program tackles future challenges in everything from transportation to health care to the environment. This program aired on the station's tertiary digital stream, WRDC 28.3. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | This animal series takes a unique, scientific approach to animal behavior studies. By going one step further, the program examines how and why an animal is able to excel in its environment. Using animation, graphics, and scientific analysis from animal experts, viewers can gain more understanding than ever before about these amazing creatures. This program will air on the station's tertiary digital stream, WRDC 28.3. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Each week, host Emily Calandrelli takes journeys through space that will both entertain and educate viewers. Ever wonder what it would be like to live in space or on a different planet? Emily shows viewers what it is like to try to perform everyday tasks while floating in zero gravity and living in a Mars-like habitat. Episodes feature space robotics, commercial space tourism, asteroids, the search for other life in space, and many other topics, including NASA-related programs as applicable to the episodes. This program will air on the station's tertiary digital stream, WRDC 28.3.                                                               |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Host Philippe Cousteau (grandson of famed undersea explorer Jacques Cousteau) brings energy to every location he visits while seeking to inspire and educate viewers in earth sciences. This program takes an in-depth look at the unique and distinct features on planet Earth, from magnificent mountains to erupting volcanoes. Viewers will not only behold the beauty of gigantic glaciers, but also discover why they formed and how they shaped our landscape. Geological experts share their wisdom with Philippe, as he strives to understand places on, inside, and above the Earth. This program will air on the station's tertiary digital stream, WRDC 28.3. |
