Digital Core Programming

Question	Response
State the average number of hours of Core Programming per week broadcast by the station on its main program stream	3.0
State the average number of hours per week of free over-the-air digital video programming broadcast by the station on other than its main program stream	336.0
State the average number of hours per week of Core Programming broadcast by the station on other than its main program stream. See 47 C.F.R. Section 73.671:	6.0
Does the Licensee provide information identifying each Core Program aired on its station, including an indication of the target child audience, to publishers of program guides as required by 47 C.F.R. Section 73.673?	Yes
Does the Licensee certify that at least 50% of the Core Programming counted toward meeting the additional programming guideline (applied to free video programming aired on other than the main Yes No program stream) did not consist of program episodes that had already aired within the previous seven days either on the station's main program stream or on another of the station's free digital program streams?	Yes

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Our host, Philippe Cousteau, the grandson of legendary Jacques Cousteau, brings boundless energy to every location we visit. Produced primarily for the 13-16 target audience, Xploration Awesome Planet will inspire and educate anyone interested in earth sciences. From magnificent mountains to violent volcanoes, this program takes an in-depth look at the unique and distinct features on planet Earth. We not only visit gigantic glaciers and behold their beauty but also discover why they formed, and how they shaped our landscape. Geological experts share their wisdom with Philippe, as we strive to understand places on the earth, inside the earth, and above the earth. The program is regularly scheduled and airs between the hours of 7:00am and 10:00pm. The program is 30 minutes in length and is close-captioned and E/I inscribed. It is identified as an educational and informational show targeted to 13 to 16 year olds in listings provided to publishers of program guides.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Each week our host Emily Calandrelli will take viewers on incredible journeys through space that will both entertain and educate. Ever wonder what it would be like to live in space or on a different planet? Watch our host try to perform every day responsibilities while floating in zero gravity. Explore the challenges that come along with living on a different planet as our host lives like an astronaut in a Mars-like habitat. This new half hour weekly series produced for the 13-16 target audience will certainly attract viewers of all ages. We will have episodes on space robotics, commercial space tourism, asteroids, and our search for life, among many others. When appropriate, the host will highlight NASA related programs and internships for young students that are relevant to the content we have shown. The program is regularly scheduled and airs between the hours of 7:00am and 10:00pm. The program is 30 minutes in length and is close-captioned and E/I inscribed. Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Word Travels is a TV series that follows freelance journalist Robin Esrock and national travel columnist Julia Dimon as they battle deadlines, jetlag, culture shock, and each other, to file the best travel stories possible. While travelling to exotic locations and writing about enlightening experiences may sound like an adventurous occupation, the life of a travel writer is not always as glamorous as it seems. Filmed in 36 countries across six continents, each half-hour episode reveals the real story of professional travel journalism, the truth behind the byline, and reinvents the way travel shows are currently presented. This series allows teenagers to explore how individuals in various nations and continents live their daily lives and examine what are the differences in customs and languages in each locale. The series also demonstrates how to write stories about these destinations and what information is relevant to good story-

The series allows teen viewers to see many continents and countries, exploring geography, history and languages. In each episode, the focus is on the hosts writing about their destination and what elements are best for their writing assignment. Young viewers learn about the differences in various customs and cultures, as well as exploring what aspects of the daily lives of those people visited that may be similar to Americans.

Program Title	Look Kool on Ion 51.3
Origination	Network
Days/Times Program Regularly Scheduled	Fridays 9:00am & 9:30am
Total times aired at regularly scheduled time	26
Length of Program	30 mins
Age of Target Child Audience from	6 years to 9 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Look Kool is a program designed for children 6 to 9. On every episode, the male host, Hamza, interacts with an animated robot cat, a historical guest (played by Hamza in costume), children, and other animated creatures. The basic premise of the show is the idea that math is everywhere and each episode includes real children who help Hamza solve mathematical or scientific curiosities. Look Kool works hard to highlight for learners the link between the lesson and real life in order to activate and keep the children's interest. Live action children in real world settings put the lesson of the episode into action by seeking its value within everyday life. Look Kool is a highly educational program and speaks to the curious minds and active imaginations of elementary age kids and encourages the transfer of knowledge out into one's everyday life.
