Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	ANIMAL ATLAS is entertaining and engaging to a wide audience while managing to deliver information that would be very welcome in a middle or high school classroom. The series matches the evolved visual intelligence of the young 21st century audience by building content with short clips, five seconds or less in length, and weaving them together in a narrative that keeps a viewer engaged with a compelling narrative overview. The thread that links the clips together is the connection between the differing members of the animal kingdom - including our own species. In a compelling blend, animal examples are pulled from both common experience, such as the horse and cat, and exotic animals like the clouded leopard and the red panda. As the nature of animals is explored, the content and clarity create a program of exceptional education value.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	ON THE SPOT is a series tapping knowledge across a series of subject areas: geography, art, technology, science, math, history, language, music, and sports. It also addresses general cultural knowledge. The format is a series of seemingly random questions to individuals who are either of school age or adults past the age of high school graduation. It taps into fact retrieval in the curriculum, expands the information beyond fact retrieval, and most importantly, it addresses what educators call non-cognitive factors for student success. These factors include self-esteem and frames in which students see learning occurring.

Program Title	(2.2) Animal Atlas
Origination	Network
Days/Times Program Regularly Scheduled	Saturdays @ 8:00am & 10:30am
Total times aired at regularly scheduled time	26
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	ANIMAL ATLAS is entertaining and engaging to a wide audience while managing to deliver information that would be very welcome in a middle or high school classroom. The series matches the evolved visual intelligence of the young 21st century audience by building content with short clips, five seconds or less in length, and weaving them together in a narrative that keeps a viewer engaged with a compelling narrative overview. The thread that links the clips together is the connection between the differing members of the animal kingdom - including our own species. In a compelling blend, animal examples are pulled from both common experience, such as the horse and cat, and exotic animals like the clouded leopard and the red panda. As the nature of animals is explored, the content and clarity create a program of exceptional education value.
