Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	AIRING ON MAIN DIGITAL CHANNEL: The mission of "Teen Kids News" is to produce a weekly news program that provides information and news to kids in a manner that is educational as well as highly entertaining. The target audience for the program is 13-16 year olds. It is designed to appeal to the audience on its own level. The focus of the program is young people, always letting them tell their stories in their own words. The large, diverse news anchor team is unique in television and has great appeal on kids who identify with and emulate them. This program serves the audience in a way that makes a real difference in their lives. It inserts the clear voice of the kid into the adult-dominated media and provides a unique perspective to the news that is not currently available on network television. This is a unique way of doing business in the crowded world of television news. There is no current news program that features actual kids reporting to other kids on television. There have been shows by adults working with kids but none that a young audience can literally identify with. Teen Kids News is filling that void and has captured the imagination of America becoming the first program in history targeting the next generation of news viewers. The program puts emphasis on diversity and experience to develop a cast of engaging and intelligent African-American, Hispanic, Asian and Caucasian male and female child actors who interact with each other and connect to the viewers.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	AIRING ON DIGITAL "MeTV" MULTICAST CHANNEL: Beakman's World is a science how based on an award winning comic strip, Beakman's World and is a fast-paced romp through many scientific questions. Each episode starts with the teaser, in which south pole penguins Don and Herb turn on the show after some witty hijinks. The first act focuses entirely on one question. The second act is Beakmania, a rapid-fire run through many short questions, followed by a longer skit with a fun experiment or the Beakman Challenge. The third act is much like the first, focusing on another single question. The Tag gives the viewer one more piece of information, then ends with Don and Herb turning off Beakman after some witty hijinks.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	AIRING ON DIGITAL "MeTV" MULTICAST CHANNEL: Mystery Hunters is an excellent example of a children's program that is innovative and empowering. Through critical observation, analytical thinking and scientific testing, the series encourages children to question the world around them. Though both the travel aspect and investigation of ancient myths and mysteries, there is a profound focus on history, culture, geography and international customs. The Mystery Hunters are Araya and Christina, regular kids with inquisitive minds, who travel the globe to investigate the sites and delve into the tales which have baffled people throughout the ages - looking for the Loch Ness Monster, unraveling a smelly mummy, searching for Princess Anastasia, and learning the true story of King Tut. Armed with video cameras and their instincts, they gather facts and meet the experts, debunking common myths and offering explanations for legends, spooky stories, and unexplained phenomena. They use critical thinking and scientific reasoning to show that things are not always what they seem. Back at the Discovery Mystery Lab, Doubting Dave, the resident skeptical scientist, challenges viewers to send in their own mysteries, and then tackles the questions with experiments and logical explanations. Dave also assists the Mystery Hunters with their investigations.

Include any other comments or information you want the Commission to consider in evaluating your compliance with the Children's Television Act (or use this space for supplemental explanations). This may include information on any other noncore educational and informational programming that you aired this quarter or plan to air during the next quarter, or any existing or proposed non-broadcast efforts that will enhance the educational and informational value of such programming to children. See 47 C.F. R. Section 73.671, NOTES 2 and 3.	Westfield Insurance Brainbusters is a locally produced high school quizbowl show that airs during the school year primarily on Saturdays at 12:30 p.m. on WGAL. This 30 minute quizbowl tournament is geared towards high school students and celebrates academic achievement. It began airing on WGAL in January 2000. The broadcast tournament includes nearly 40 schools from Lancaster, Lebanon, Dauphin, Cumberland, Perry, York, Franklin and Adams counties. Schools compete for school funding for scholarships, prizes, and more. One or more episodes of children's programming that was preempted during the quarter was not rescheduled. The Digital Core Programming Summary section of this report would not permit the station to include preemption reports for such unrescheduled preemptions, and FCC Staff has advised that no preemption report for such unrescheduled episodes is necessary. Breaking news coverage of a non-verdict in a high-profile local trial briefly interrupted the childrens program The Voyager with Josh Garcia on Saturday, June 17, 2017 from 10:27:00 through 10:32:48 a.m. on WGAL's primary channel, 8.1.

Through critical observation, analytical thinking and scientific testing, the series encourages children to question the world around them. Though both the travel aspect and investigation of ancient myths and mysteries, there is a profound focus on history, culture, geography and international customs. The Mystery Hunters are Araya and Christina, regular kids with inquisitive minds, who travel the globe to investigate the sites and delve into the tales which have baffled people throughout the ages - looking for the Loch Ness Monster, unraveling a smelly mummy, searching for Princess Anastasia, and learning the true story of King Tut. Armed with video cameras and their instincts, they gather facts and meet the experts, debunking common myths and offering explanations for legends, spooky stories, and unexplained phenomena. They use critical thinking and scientific reasoning to show that things are not always what they seem. Back at the Discovery Mystery Lab, Doubting Dave, the resident skeptical scientist, challenges viewers to send in their own mysteries, and then tackles the questions with experiments and logical explanations. Dave also assists the Mystery Hunters with their investigations.
