Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This program brings information about the natural world of animals to viewers. Entertaining the viewer with wit and observation augments the educational integrity of its content. Its approach in no way diminishes the learning that takes place when observations lead to conclusions- and young minds will draw conclusions about the natural world shown in the series. These conclusions are consistent with nationally published curriculum goals in the natural sciences. Animal Atlas is an entirely appropriate title for this engaging and informative series with a target audience of middle and high school.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Aqua Kids provide CORE programming in the area of biology and specifically the ecosystem related to the ocean, its tributaries and estuaries. Children can learn about the resources of the oceans and how protection of oceans is necessary to present and future generations. Not only does the show teach biological topics, but it aims to enrich children's lives by making them aware of future generations, the role they play now, and for generations into the future, with the biggest ecosystem on earth and the oceans. Each episode provides information related to a specific topic and gives an educational approach to understand the topic specific and focuses on a topic that can be informational in a 30 minute time span to stay in the bounds of a child's attention span. Aqua Kids uses the technique of near peer mentors i.e., children to teach other children. Each episode employs Aqua Kids who ask questions and experience first hand the experience of the topic. For example, children might feed Manatees to experience the graceful, gentle nature of the animal and learn about their biology or dig through piles of silt dredged from the ocean depths to look for shark teeth to understand how shark continually grow new teeth and loose old rows of teeth.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	WILD AMERICA is targeted to children ages 13-16. The key educational objective of the program is to familiarize children with the animals of the North American content, their interaction with other animals and their environment. Throughout the series emphasis will be placed upon protecting endangered species and the impact that humans have while interacting in their environment. Each episode of the series will be specific to a particular animal. Topics will range from basic food gather, mating, natural enemies, relationships to other animals, and the interaction of the specific ecology on the survival of the species. We expect that children viewing the program will achieve a greater understanding of nature and specific animal species because of the up-close and detailed photography of the series. Through this understanding, it is hoped children will better relate to the natural environment as it exist in North American and learn to protect its natural species.
