| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Young, enthusiastic and passionate about food, Claire Thomas is the 22-year-old host who opens viewers' eyes to how everyday life can inspire culinary creations in "Food for Thought with Claire Thomas." Each weekly-half hour episode, produced for ages 13-16, informs and educates teens about the power of food as a tool for exploring new places, meeting new people and learning about different cultures. Claire serves as a role model for 13- to 16-year-old viewers by sharing stories in the kitchen that demonstrate her passion for her family, life, and healthy living. Creative inspiration can come from any place at any time--sometimes from family, sometimes from friends, sometimes even from bloggers seeking her help. No matter how exotic or local the location, she's always in search of new tastes and places to explore. Based on her unique perspective gathered throughout each episode, Claire will teach the audience how to prepare the "inspired" dish while promoting a healthy attitude towards food and life. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | This half-hour weekly series is designed and produced to educate children aged 13-16 about the rescue, rehabilitation and, in many instances, release back into the wild of ocean wildlife. "Sea Rescue" offers educational and entertaining television by demonstrating the welfare and medical benefits that rescue and rehabilitation programs provide animals. This program seeks to educate viewers that there's a reciprocal benefit to sea animal rescue: rescued animals provide valuable insight into their biology and ecology and the information obtained adds to the pool of knowledge necessary to conserve threatened and endangered species. Each week, "Sea Rescue" seeks to leave its audience inspired by the real-life stories of the featured animals and rescuers and with a fuller understanding of the rich array of sea life with which we share our planet. |
