Targeted for children age 2 to 5, each episode explores the kind of learning issues that emerge from every day encounters in the life of a preschool child. If Zou plays his drums too loud, how can he learn to play them softly? If Zou wants a car, but has only a cardboard box, how can he transform it? If Zou lost his friends favorite airplane, how does he explain? How can Zou be successful at baking a cake if he has never done it before? How can Zou muster the courage to go to the doctor when he is afraid of injections? These are big issues in the mind and life of a preschool child and Zou demonstrates how to have fun, ask for help, listen to advice, and try different solutions until he can commit to the strategy that works. Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Justin Time is an animated show specifically directed to the preschool audience. Each episode always conveys an embedded lesson; that it is possible to understand and manage any problem you have by thinking about it creatively. Justin is a little boy who has two imaginary playmates, Olivia (who meets him on his travels) and Squidgy the sponge (who also lives in Justin's bedroom). When Justin has a problem or doesn't want to do something his mother has suggested he daydreams his way into an adventure that takes him to places all around the world. On these adventures, he meets Olivia who guides him through an experience that demonstrates to Justin how he can solve his problem. The show provides many facts about the context the characters visit while on the adventure, but the central point is to teach a lesson about a social/emotional dilemma universally experienced by preschool children.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.		<p>Lazy Town is a show featuring the importance of health, fitness, and being good friends. Set in a fantasy world known as Lazy Town, which is populated by inactive residents, we meet a visitor named Stephanie who is determined to coax her friends and relatives into adopting a healthful, active life style. She wins over her new friends, Ziggy, Stingy, Trixie and Pixel, convincing them to leave their gaming consoles and candy stashes at home so they can go outside and play. She persuades her uncle, Mayor Milford Meanswell, and his friend Ms. Busy Body to support her efforts. Robbie Rotten, who lives underground, and is determined to return Lazy Town to its former state of inactivity and quiet, constantly foils the characters' efforts. The athlete Sportacus, who lives in a zeppelin-like aircraft and receives signals from the kids or the Mayor whenever they need help, often comes to their rescue. Sportacus has two goals, to keep the peace and to promote healthful, positive living. When Robbie Rotten is discovered and contained through comic pratfalls, he returns to his underground lair and all is well in Lazy Town, until another day and another time when Robbie will rise again.</p>

The series also succeeds in modeling all ages, ethnicities, and both genders as successful, knowledgeable individuals. Although there are right and wrong answers, there are right answers from people that every audience member can identify with. This is of too often misunderstood importance for the targeted 13 to 16 year old age. Identifying with a successful representative of your own group is extremely important. But it is also very important to learn respect for those outside your own group and this series does that very well.
