Digital Core  
Programming

Question	Response
State the average number of hours of Core Programming per week broadcast by the station on its main program stream	4.0
State the average number of hours per week of free over-the-air digital video programming broadcast by the station on other than its main program stream	168.0
State the average number of hours per week of Core Programming broadcast by the station on other than its main program stream. See 47 C.F.R. Section 73.671:	3.0
Does the Licensee provide information identifying each Core Program aired on its station, including an indication of the target child audience, to publishers of program guides as required by 47 C.F.R. Section 73.673?	Yes
Does the Licensee certify that at least 50% of the Core Programming counted toward meeting the additional programming guideline (applied to free video programming aired on other than the main Yes No program stream) did not consist of program episodes that had already aired within the previous seven days either on the station's main program stream or on another of the station's free digital program streams?	Yes

Liaison Contact

Question	Response
Does the Licensee publicize the existence and location of the station's Children's Television Programming Reports (FCC 398) as required by 47 C.F.R. Section 73.3526(e)(11)(iii)?	Yes
Name of children's programming liaison	Maryann Ryan
Address	715 N. Pearl Street
City	Albany
State	NY
Zip	12204
Telephone Number	518.207-4880
Email Address	maryan@wnyt.com

<p>Include any other comments or information you want the Commission to consider in evaluating your compliance with the Children's Television Act (or use this space for supplemental explanations). This may include information on any other noncore educational and informational programming that you aired this quarter or plan to air during the next quarter, or any existing or proposed non-broadcast efforts that will enhance the educational and informational value of such programming to children. See 47 C.F.R. Section 73.671, NOTES 2 and 3.</p>	<p>WNYT-TV, LLC has timely filed its license renewal application. The renewal is pending. WNYT-TV, LLC ceased broadcasting its analog channel on 6/12/2009 per FCC. WNYT-TV - Children's Report Second Quarter- April 2011 Baby Sleep Problems - April 1, 2011 - 12:00 pm A customized online program may help reduce sleep problems among infants and toddlers. More than 250 mothers participated in web-based intervention that gave customized advice on how to improve their child's sleep habits. Parents can go through a questionnaire and get the customized sleep profile, which then generates some advice. Autism Robot - April 3, 2011 - 8:00 am Researchers say that autistic children seem to respond better to technology than they do to humans. Researchers are hoping it will eventually bridge a communication gap and help people who are autistic. Autism Treatment - April 4, 2011 - 12:00 pm When it comes to treating autism, there are more questions than answers according to a new study. Researchers analyzed past studies on the effectiveness of medication or behavior treatments. They found strong evidence the ulcer drug Secretin was not effective for children with autism. While Risperdal and Abilify were found to be effective in controlling behavior problems they were associated with side effects like weight gain. They also say intensive behavioral therapy in very young kids has helped some of them improve reasoning and language skills. Kids Breakfast - April 4, 2011 - 5:00 pm Studies have shown kids who eat breakfast may perform better in school and have a better overall diet. A good breakfast for kids include a good source of protein, like lean meat, egg whites, or skim milk. It should also include a carbohydrate from something like a whole grain cereal. One of the ways you can get your kids to stop and eat breakfast is to get them involved in the preparation. You can also have your children go with you to the grocery store and help pick out the things they'd like for breakfast. I Choose 600 - April 4, 2011 - 5:00 pm The health department is urging people to limit each meal to six hundred calories. The new campaign seeks to reverse the trend of obesity. Studies show that two thirds of adults and a third of children are overweight or obese. Girl Sports Injuries - April 4, 2011 - 5:00 pm The youth sports world is competitive but the intense activity might be too much for some teen girls. They may be setting themselves up for long-term health problems. Child ID Theft - April 6, 2011 - 12:00 and 6:00 pm New research shows that identity thieves are targeting children more than ever before. Some children have found their names illegally linked to mortgages, car loans, and driver's licenses. Parents are recommended to protect their kids from identity theft the same way you would protect your children from any predator. Unhealthy Moms - April 11, 2011 - 5:00 am and 12:00 pm According to a new study taking care of young children can wreak havoc on your health. The study analyzed the dietary and exercise habits of young parents with kids under age five. Mothers in particular had higher body mass indexes than women without children and didn't get as much exercise. Their diets suffered as well. Quick-fix meals coveted by so many busy parents might be part of the problem. Parents that participated in the study did eat a healthy amount of fruits, vegetables and whole grains because they wanted to model good eating habits for their children. Researchers say those good intentions can be applied to exercise too. They're healthy habits that can benefit both children and their parents. Parenthood Inactivity - April 11, 2011 - 5:00 pm A new study finds parenthood is associated with a number of problems including poor diet and low physical activity. Studies show that young mothers had highe</p>
