Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The educational objectives of Cubix include the reinforcement of age-appropriate interpersonal skills, the development of self-confidence, courage and personal responsibility. Cubix exposes children to these lessons within an entertaining, non-threatening imaginary environment. The Botties and their robots tackle personal and community adversities in creative story lines. Within this framework, children can see age-appropriate problem-solving strategies and learn to model the appropriate behavior. Through the Botties' experiences, viewers learn to overcome self-esteem and social competency issues, demonstrating to children that self-confidence, courage and resilience are necessary tools for problem solving and establishing good interpersonal relationships. Moreover, the characters inspire and promote altruistic behaviors, such as community participation, support, resilience, tolerance and leadership skills. This program is specifically designed to further the educational and informational needs of children,has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules; the objective and target audience is specified in this report; and the instructions for the E/I designation and appropriate age groups have been provided to publishers of program guides.
