Length of Program	30 mins
Age of Target Child Audience	2 years to 5 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Chica is a five-year-old chick who spends her days with her parents in their costume shop, the Coop. The shop's one employee, Kelly, doubles as Chica's nanny and the ensemble is rounded out with Bunji, a large floppy eared rabbit and Stitches, a straw mannequin that sits in the window. In each episode Chica develops or encounters a problem that she cannot immediately resolve. Usually her issues involve impulse control, distractibility, judgment, and inter-personal behaviors. She and Kelly usually work on the problem through an adventure-a fantasy transformation to animation-- where Bunji and Stitches come alive and join Chica and Kelly for the problem solving process. The core educational content is primarily socio-emotional development, and Chica learns how to express herself properly, think before she acts, and interact with others effectively. She often learns that it takes hard work and practice to become proficient at different skills.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The Pajanimals are a group of four preschool aged puppets who live together in house with their off-screen mother and father. We meet them in the bedroom, a dormitory of sorts, where they show us their nighttime routine of brushing their teeth and having quiet conversation before falling off to sleep. The quiet time, always turns into a discussion that results in a dream-like adventure to solve a problem, such as overcoming shyness, making a new friend, or dealing with a bully. The adventure takes place in several nighttime dream locales where special friends help them work through the socio-emotional problem of the day. Specific approaches to managing the problem are demonstrated and practiced during the adventure, and the children return home confident, getting ample rest for today and facing their issues tomorrow.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Justin Time is an animated show specifically directed to the preschool audience and always conveys an embedded lesson; it is possible to understand and manage any problem you have by thinking about it creatively. Justin is a little boy who has two imaginary playmates, Olivia (who meets him on his travels) and Squidgy the sponge (who also lives in Justin's bedroom). When Justin has a problem or doesn't want to do something his mother has suggested he daydreams his way into an adventure that takes him to places all around the world. On these adventures, he meets Olivia who guides him through an experience that demonstrates to Justin how he can solve his problem. The show provides many facts about the context the characters visit while on the adventure, but the central point is to teach a lesson about a social/emotional dilemma universally experienced by preschool children.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Lazy Town promotes fitness and healthful habits for children of preschool and primary grades. It takes place in an imaginary setting, Lazy Town, and most episodes relate children's eating and fitness habits to problem solving in their "real world." The lead character, Stephanie, guides the audience through the story. She and her best friends, a group of "human" puppets reside in Lazy Town, where her uncle is the Mayor Milford Meanswell. The underground spy and influencer who defines the ethos of Lazy Town is Robbie Rotten, and he determined to ruin the health and fitness practices of Stephanie and her friends. When the kids get into difficulties with Robbie Rotten, it is Sportacus, gymnast/athlete who comes to the rescue from his home in a spaceship that hovers over earth, prepared to answer to any call for help. The ever-present theme of Lazy Town is to eat "sports candy" which consists of fruits and vegetables, get sufficient sleep, and go outside and engage in a wide range of physical activities, from playing games, holding athletic competitions, to building forts and play structures.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Make Way for Noddy is based on a recurring character in the Enid Blyton book series for very young readers. Noddy, a boy doll, lives in a little cottage in the village of Toyland. He tools around in his sporty convertible, delivers the mail, and is a friend to all. Because he is very kind to others, he invariably is asked to help solve problems. But because he doesn't know everything, he also has a lot to learn. In each episode Noddy actively finds a way manage a project, soothe hurt feelings, settle arguments, or learn how to do something new by following directions. The examples in each episode are age appropriate challenges for children in the target audience and model clear and concrete solutions to problems.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Animal Atlas remains on course as a program that is entertaining and engaging to a wide audience while managing to deliver information that would be very welcome in a middle or high school classroom. The series matches the evolved visual intelligence of the young 21st century audience by building content with short clips, five-seconds or less in length, and weaving them together in a narrative that keeps a viewer engaged with a compelling narrative overview. The animal kingdom has an innate richness of color, form, and motion and Animal Atlas episodes are built from this richness. The thread that links the clips together is the connection between the differing members of the animal kingdom--- including our own species. In a compelling blend, animal examples are pulled from both common experience, such as the horse and cat, and exotic animals like the clouded leopard and the red panda. As the nature of animals is explored, the content and clarity create a program of exception education value.

Include any other comments or information you want the Commission to consider in evaluating your compliance with the Children's Television Act (or use this space for supplemental explanations). This may include information on any other noncore educational and informational programming that you aired this quarter or plan to air during the next quarter, or any existing or proposed non-broadcast efforts that will enhance the educational and informational value of such programming to children. See 47 C.F.R. Section 73.671, NOTES 2 and 3.	KOBI-TV is very active in the community. Our staff regularly offers tours of the station and speaks to students at their schools, career days, etc. ********** Southern Oregon Meth Project: Created by NBC 5 and NBC 2, our main goal is to considerably decrease the prevalence of first time Meth users in Southern Oregon, with the primary focus being children. This initiative has won an Emmy, the National Association of Broadcasters Service to America Award, along with several state and regional awards. Visit www.southernoregonmeth.org ********** YES (Youth, Education, Success): KOBI-TV/NBC5, KOTI-TV/NBC2 and their partners launched YES (Youth Education Success) in January of 2012. Participating businesses will donate a portion of their earnings one day a month to fund extracurricular activities, classroom supplies and programs for public schools in our region. Through YES, schools can access a portion of the overall collected funds by applying for YES Grants. KOBI5 DT1: Due to difficulties in rescheduling programs during this reporting period, KOBI temporarily identified two second homes for Tree Fu Thom, Lazytown and Make Way for Noddy. On Sat Oct 5, E/I programs The Chica Show, Pajanimals and Justin Time were scheduled to air 3:00pm to 4:30pm. Presidents Cup Golf ran long to 4:10pm. The Chica Show and Pajanimals were preempted, Justin Time was JIP'd at 4: 10pm. On Sunday, Dec 8, Missing was scheduled to air at 3pm. Golf went long and Missing was JIP'd at 3:18pm. KOBI5 DT2 (WX Now/THIS TV): On Saturday, December 14, we converted our D2 station format from WX Now to THIS TV. Because it was a soft launch, we cut away from THIS TV programs to air our normally scheduled E/I programs on our D2 platform as publicized. Beginning 12/22 we changed the times of Dragonfly TV, Real Life 101, Think Big and Aqua Kids to Sundays 8-10am. THIS TV provides an hour of E/I programs 7-8am to complete the three hour block.

Program Title	The Chica Show
Origination	Network
Days/Times Program Regularly Scheduled	Saturdays 8-8:30am 5.1
Total times aired at regularly scheduled time	13
Length of Program	30 mins
Age of Target Child Audience from	2 years to 5 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Chica is a five-year-old chick who spends her days with her parents in their costume shop, the Coop. The shop's one employee, Kelly, doubles as Chica's nanny and the ensemble is rounded out with Bunji, a large floppy eared rabbit and Stitches, a straw mannequin that sits in the window. In each episode Chica develops or encounters a problem that she cannot immediately resolve. Usually her issues involve impulse control, distractibility, judgment, and inter-personal behaviors. She and Kelly usually work on the problem through an adventure-a fantasy transformation to animation-- where Bunji and Stitches come alive and join Chica and Kelly for the problem solving process. The core educational content is primarily socio-emotional development, and Chica learns how to express herself properly, think before she acts, and interact with others effectively. She often learns that it takes hard work and practice to become proficient at different skills.

Length of Program	30 mins
Age of Target Child Audience from	2 years to 5 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Noodle and Doodle is a live-action show hosted by Sean Roach that also blends animation and puppetry into the overall format. Sean drives a double-decker bus into various communities to meet children who have written to him with a problem that they would like to solve using an art and/or a food experience. Sean is accompanied by Noodle, a puppet character and Doodle, a digital character that lives inside a tablet computer, and Doggity, a faithful beagle. Doggity has a mini-show of his own through an animated alter ego that appears during diversionary segments set in a restaurant kitchen. The show demonstrates how recycled materials can become art and how food, art, and problem solving can be combined to create a fun experience in everyday life. Every episode can be replicated at home with ease by parents and children playing together.

Days/Times Program Regularly Scheduled	Saturdays 9-9:30am 5.1
Total times aired at regularly scheduled time	13
Length of Program	30 mins
Age of Target Child Audience from	2 years to 5 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Justin Time features and little boy, Justin, who wants very much to master his destiny, have great adventures, and solve problems. He begins with a problem that vexes him and daydreams his way into an adventure that takes him to different places around the world, but also provides him with an experience that helps him solve his problem when he returns home. While on the adventure he is accompanied by Olive, a knowledgeable imaginary playmate, and Squidgy the morphing flying sponge, who provides commentary and comedy along the way. Justin's lessons involve learning, for example, that it takes focus to achieve success, failure can teach what we need to do to succeed next time, or when one path to solve a problem doesn't work, you can find another way to get to your goal. Justin is all about self-directed learning from the young child's perspective and imagination.

Origination	Network
Days/Times Program Regularly Scheduled	Saturdays 10-10:30am 5.1
Total times aired at regularly scheduled time	13
Length of Program	30 mins
Age of Target Child Audience from	2 years to 5 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Lazy Town promotes fitness and healthful habits for children of preschool and primary grades. It takes place in an imaginary setting, Lazy Town, and most episodes relate children's eating and fitness habits to problem solving in their "real world." The lead character, Stephanie, guides the audience through the story. She and her best friends, a group of "human" puppets reside in Lazy Town, where her uncle is the Mayor Milford Meanswell. The underground spy and influencer who defines the ethos of Lazy Town is Robbie Rotten, and he determined to ruin the health and fitness practices of Stephanie and her friends. When the kids get into difficulties with Robbie Rotten, it is Sportacus, gymnast/athlete who comes to the rescue from his home in a spaceship that hovers over earth, prepared to answer to any call for help. The ever-present theme of Lazy Town is to eat "sports candy" which consists of fruits and vegetables, get sufficient sleep, and go outside and engage in a wide range of physical activities, from playing games, holding athletic competitions, to building forts and play structures.

Program Title	Animal Atlas
Origination	Network
Days/Times Program Regularly Scheduled	Sundays 7-7:30am
Total times aired at regularly scheduled time	13
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Animal Atlas remains on course as a program that is entertaining and engaging to a wide audience while managing to deliver information that would be very welcome in a middle or high school classroom. The series matches the evolved visual intelligence of the young 21st century audience by building content with short clips, five-seconds or less in length, and weaving them together in a narrative that keeps a viewer engaged with a compelling narrative overview. The animal kingdom has an innate richness of color, form, and motion and Animal Atlas episodes are built from this richness. The thread that links the clips together is the connection between the differing members of the animal kingdom--- including our own species. In a compelling blend, animal examples are pulled from both common experience, such as the horse and cat, and exotic animals like the clouded leopard and the red panda. As the nature of animals is explored, the content and clarity create a program of exception education value.
