Describe the educational and informational objective of the program and how it meets the definition of Core Programming.

This program is a science series that educates children about science concepts, introducing them to science and math by exploring fundamental principles such as gravity, pressure, kinetics and magnetism by conducting science experiments in an integrated and entertaining way. It is produced using a combination of 3D animation and live footage. The host, Max, is a 3D animated mouse which talks to the audience and the participants, explaining what the science concept and experiment is and how to perform it. The participants are junior high school children guided by a science facilitator. Together they perform the experiment instructed by Max the Mouse. The program also uses 3D animation to explain the steps and results of the experiment. This program will air on the secondary digital stream WLFL channel 22.2.
