| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Eco Company provides CORE programming in the area of the environment and preservation of the earth resources. Eco Company explores all aspects of being green and understanding how our actions impact the world. The E-Co team learns about global warming by asking questions to discover the truths and myths of the global warming issue. They learn about alternative energies by visiting wind farms and solar installations and discovering new energy technologies currently under development. They learn more about recycling, conservation and organics. The E-Team profiles teens and school organizations who have taken it upon themselves to make a difference, young entrepreneurs who are taking their passion for green to develop new ideas, and new products for a sustainable future. Most importantly, each story and each feature is reported by teens and told from their perspective. Additionally the show provides weekly practical tips that teens, and people of all ages can use in their daily lives. Eco Company uses the technique of peer reporting. The diverse and dynamic cast of teens who make up Eco Company combine their natural curiosity with their enthusiasm to report the informational stories to teens and their families. Each episode employs Eco Company members or hosts who conduct interviews of peers and adults, and experience first hand the demonstration and explanation of the topic. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Aqua Kids provides CORE programming in the area of biology and specifically the ecosystem related to the ocean, its tributaries and estuaries. Children can learn about the resources of the oceans and how protection of oceans is necessary to present and future generations. Not only does the show teach biological topics, but it aims to enrich children lives by making them aware of future generations, the role they play now, and for generations into the future, with the biggest ecosystem on earth, the oceans. Each episode provides information related to a specific topic and gives an educational approach to understand the topic related to the entire ecosystem of the earth. Each episode is topic specific and focuses on a topic that can be informational in a 30 minute time span to stay in the bounds of a child's attention span. Aqua Kids uses the technique of near peer mentors i.e., children to teach other children. Each episode employs Aqua Kids who ask questions and experience first hand the experience of the topic. For example, children might feed Manatees to experience the graceful, gentle nature of the animal and learn about their biology or dig through piles of silt dredged from the ocean depths to look for shark teeth to understand how shark continually grow new teeth and loose old rows of teeth. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | "This Week In Baseball" highlights the pro-social on-and-off the field activities of MLB's leading players and coaches. Working with the National Association for Sport and Physical Education (NASPE), "This Week In Baseball" seeks to provide today's youth with educational messages that can have an impact on development of positive lifestyle behaviors. The program portrays the positive outcomes that result from dedication, hard work, self-discipline, teamwork, practice and personal responsibilities. The program also relates the achievements and experiences of baseball players to potential achievements in life. The program will be regularly scheduled and air between the hours of 7:00 am and 10:00 pm. The program is 30 minutes in length, and will be identified as an educational and informational show, targeted to teens (13-16 year old), at the beginning and through each broadcast and in listings provided to publishers of program guides. |
