	Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This television program provides educational and informational segments exposing the target audience of young viewers to everything Pets. The upbeat contemporary presentation relates pets to their lives and interests. Pets from everyday to the unique are showcased with educational information that shares how they evolved to become pets and their geographic origins. Professionals share personal experiences of featured animals and/or related products. In these segments the excitement and love of working with pets is expressed. The motivational and inspirational message of each guest empowers audiences of all ages to pursue more information and education about everything pets. Each segment of Pets.TV delivers an educational and informational message that supports current social, intellectual and emotional aspects of children ages 13 and up. Attributes and advice emphasized by guests instill a grounded balance of priorities, commitment, and perseverance children can apply to their lives. This program airs on our primary digital stream.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Ocean Mysteries offers a fresh approach to the quest for aquatic understanding by blending stories of fascinating sea creatures, comparisons to popular land animals, and analogies to the human experience. Ocean Mysteries engages viewers thirteen to sixteen and beyond by showing how animals share the same behaviors, challenges, and triumphs that humans do. Vital to the process is the shows host, Jeff Corwin, whose uncanny ability to instill empathy for even the tiniest of creatures, allows viewers to rally behind the featured animals and see how important they are to all life on our planet. Exploration, discovery and adventure are all parts of Jeff Corwins journey and viewers experience the high definition action from sea level and below.

On an episode by episode basis, Oscar, in the role of his alter ego, Nanoboy, harnesses and uses the power of science and technology to save his world from the meanest and ugliest villains around. In doing so, he teaches target viewers the elements of science and enticingly demonstrates how knowledge can be used to solve difficult problems and meet important aims. This learning becomes all the more impactful because young viewers can readily relate to Oscar. Hes bright and funloving, and like all kids, hes not perfect. Oscar is small for his age, athletically challenged, and perhaps even a bit nerdy. But when Oscar and his friends are faced with peril, Oscar magically transforms from every kid into amazing Nanoboy. Through observation, viewers gain the motivation to use learning, knowledge, and action to transform themselves to meet challenges in their own lives. This program airs on our secondary digital stream.

	Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Animal Science is a half-hour weekly EI animal series with a uniquely scientific approach. This series is specifically produced for children 16 and under with a target audience of 13 to 16. While most animal shows look at the behavior of animals, we go one step further to look at the how and why an animal is able to excel in its environment. Shot in high definition, Animal Science uses animation, Graphics, and scientific analysis from animal experts to give viewers more understanding than ever before of these amazing creatures. Our enthusiastic host's modern vocal style will be engaging to the target audience. This program will attract all age demographics and airs on our secondary digital stream.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Elizabeth Stantons Great Big World provides dynamic core programming in the areas of particular concern to young teens including global, social, and educational and wellness issues. Award winning teen hostess Elizabeth Stanton and select celebrity friends travel the world volunteering in areas of specific need ranging from feeding the hungry in the slums of Kenya to bringing hearing aids to Vietnamese neighborhoods whose citizens have experienced high rates of profound deafness and hearing loss. Great Big World offers a dynamic television experience for teens combining the exciting, fun and diverse experiences of world exploration with the life changing volunteer opportunities in available in the same areas. Various age appropriate global issues are introduced to the viewing audience through in depth and thoughtful interviews with Elizabeth, her travel buddies, and the friends they meet along their journey. In addition, Elizabeth and her friends personal hands on experiences in the field both inspire teens to engage in selfless, helping behaviors in addition to educating them on where and how to find volunteer opportunities. This program airs on our secondary digital stream.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Chat Room is a half-hour weekly educational series designed to inform, educate, and entertain childre 16 and under, with a specific target audience of 13 to 16, through reenacting teen oriented dilemmas and discussing them in an open and honest format. More than any other group, teens are on the front lines of dealing with complex subjects as they stand at the crossroads between childhood and adulthood. Chat Room may not have all the answers but it offers a place where young people can wate and discuss the problems they face. Chat Room provides a compelling look at real-life situations that happen to today's teens as dramatized by teen actors. Our adult host and teen panel then discuss the issues presented in a direct and forthright manner. This program is not intended to be preachy or pedantic. The goal is to present issues that are real and raw and discuss the pros and cons of each situation in a free-flowing environment. This program airs on secondary digital stream.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	On the Spot uses an entertaining on the street format to test how well young people know the information contained in their own national curriculum. Then, On the Spot explains the answer to each question. The pedagogical approach of testing first and explaining the answer second has been shown to enhance retention and understanding. On the Spot challenges viewers to recall middle and high school knowledge about history, science, math, English, second languages, health, geography, art, music, and technology, and then teaches them the answer. On the Spot stands out as one of the most scholastically diverse and enriching programs on the market. This program airs on our secondary digital stream.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This educational informational weekly series showcases how and why movies are made, including behind the scenes filmmaking and special effects techniques, in addition to introducing teenagers to career opportunities within the motion picture industry. It is during the adolescent years that career exploration, planning, education, and decision making begins. There is no question that a career in one of the multimedia industries is among the most popular career choices of adolescents. Although many feel their calling is for a more obvious on camera career in acting, there are also a number of behind the screen pursuits that make for fulfilling career choices. This program was created to provide information and advice from top Hollywood professionals to 13 to 16 year old viewers so they can explore and learn about the technical, artistic, creative, business, and administrative careers that are a part of the motion picture, television, music video, and home entertainment industries

Origination	Syndicated
Days/Times Program Regularly Scheduled	Sundays 11:00 AM - 11:30 AM

Total times aired at regularly scheduled time	13
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Animal Science is a half-hour weekly EI animal series with a uniquely scientific approach. This series is specifically produced for children 16 and under with a target audience of 13 to 16. While most animal shows look at the behavior of animals, we go one step further to look at the how and why an animal is able to excel in its environment. Shot in high definition, Animal Science uses animation, Graphics, and scientific analysis from animal experts to give viewers more understanding than ever before of these amazing creatures. Our enthusiastic host's modern vocal style will be engaging to the target audience. This program will attract all age demographics and airs on our secondary digital stream.
