Digital Core
Programming

Question	Response
State the average number of hours of Core Programming per week broadcast by the station on its main program stream	3.0
State the average number of hours per week of free over-the-air digital video programming broadcast by the station on other than its main program stream	168.0
State the average number of hours per week of Core Programming broadcast by the station on other than its main program stream. See 47 C.F.R. Section 73.671:	3.0
Does the Licensee provide information identifying each Core Program aired on its station, including an indication of the target child audience, to publishers of program guides as required by 47 C.F.R. Section 73.673?	Yes
Does the Licensee certify that at least 50% of the Core Programming counted toward meeting the additional programming guideline (applied to free video programming aired on other than the main Yes No program stream) did not consist of program episodes that had already aired within the previous seven days either on the station's main program stream or on another of the station's free digital program streams?	Yes

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Magi-Nation follows the adventures of teenager Tony Jones, whose world is forever changed when he is mystically transported into a beautiful world far beyond imagination that was created a millennium ago by a powerful race known as the Magi. Here Tony meets Edyn and Strag, two young Magi heroes in training, who help him discover his vast new magical environment. However, all is not perfect in Tonys new world as the Moonlands of Magi-Nation are threatened by the evil Shadow Magi. Its up to this young trio and their vast collection of Dream Creatures to thwart the evildoers plans and protect their world. Viewers experince the Magi as they navigate their way through environmental obstacles and confront the constant challenges and creatures that threaten the vitality of the 12 precious Moonlands of Magi-Nation. The target audience is 7-12 years old boys and girls across a broad spectrum of racial, ethnic and socio-economic categories. Educational objectives to provide viewers with increased knowledge of the world around us. To learn to assess situations, develop critical thinking, to act ethically right and to employ teamwork.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Dragonfly TV is a weekly half-hour science television series that meets the educational and informational objectives of the FCCs Childrens Programming requirements for children ages 13-16. The programs highlight children doing projects with real hands-on experience and demonstrates practical applications of mathematics and science. It introduces young viewers to a variety of scientific disciplines and challenges them in critical thinking and problem solving skills, while providing valuable information to reach answers. Each episode is engaging, entertaining and educational in structure, allowing children to investigate science on their own.

Total times aired	
Number of Preemptions	0

Number of Preemptions for other than Breaking News	
Number of Preemptions Rescheduled	
Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	9th PERIOD is a series for teens that teaches positive consequences of thought and action when combined with friendships effective influences. This series is comprised of three friends who meet every day after school to discuss the days events. Their exchanges are witty and on par with the subject matter of the social interaction that todays children experience. These three friends are more than friends, they are amateur sleuths. Each show presents a mystery that the children solve by the end of that show. Problem solving, working together toward a common goal, ethics, and morals are conveyed through the thoughts, words, and actions of these three characters: Peyton, Connor, and Meg. Every child will see him/herself in these characters. Peyton, Connor, and Meg share their daily trials and triumphs as they face the following together: bullies-both cyberspace and in your face; thievery, learning difficulties, family conflicts, adversity in and out of the classroom, homelessness, hidden agendas in places as small as the schoolyard to their favorite restaurant, and as large as the town itself. Children will see their worlds mirrored on the small screen. They will also observe alternative ways to handle stress, learning difficulties, and the variety of endless manners that the group mentality, when positively united, can spread good in the world. Target Age Group: 13 to 16 year olds

Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Mystery Hunters features hosts Araya and Christina investigate real life reports of mysteries such as ghosts, monsters, vampires and UFOs. They use scientific rigour to try to find plausible explanations for the sightings and eye-witness accounts that trigger their investigations. In another section of the show, Doubting Dave, a scientist played by David Acer, is featured in two segments; the first attempts to explain mysterious personal experiences that have been emailed in by viewers, in a feature called "V-Files", the second segment teaches viewers a way to create your own versions of the mysteries in the show in his "Mystery Lab" segment. The show aims to teach critical observation, analytical thinking and scientific testing to encourage children to question the world around them. Through travel and investigation of ancient mysteries; focusing on history, culture, geography and international customs. Target teens 13 to 16
