Age of Target Child Audience	2 years to 5 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Chica is a five-year-old "baby" chick who spends her days with her parents in their costume shop, the Coop. The shop's one employee, Kelly, doubles as Chica's nanny and the ensemble is rounded out with Bunji, a large floppy eared rabbit and Stitches, a straw mannequin that sits in the window. In each episode Chica develops or encounters a problem that she cannot immediately resolve. Usually her issues involve impulse control, distractibility, judgment, and inter-personal behaviors. She and Kelly usually work on the problem through an adventure-a fantasy transformation to animation-- where Bunji and Stiches come alive and join Chica and Kelly for the problem solving process. The core educational content is primarily socio-emotional development, and Chica learns how to express herself properly, think before she acts, and interact with others effectively. She often learns that it takes hard work and practice to become proficient at different skills. The Chica Show, Episode #TCS107, was preempted on 7/12/14 due to NBC's airing of the Tour De France. The Chica Show, Episode #TCS205, was preempted on 9/27/14 due to NBC's airing of Ryder Cup Golf.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Tree Fu Tom is a live action/animated series about a little boy who lives in a rural area and has a rich fantasy life in the woods behind his home. Targeted for children age 2-5, each episode explores the kind of learning issues that emerge from every day encounters in the life of a preschool child. If Zou plays his drums too loud, how can he learn to play them softly? If Zou wants a car, but has only a cardboard box, how can he transform it? If Zou lost his friend's favorite airplane, how does he explain? How can Zou be successful at baking a cake if he has never done it before? How can Zou muster the courage to go to the doctor when he's afraid of injections? These are big issues in the mind and life of a preschool child and Zou demonstrates how to have fun, ask for help, listen to advice, and try different solutions until he can commit to the strategy that works. While these predicaments take place on a space station populated by animal characters and aliens from different galaxies, the issues and resolutions resonate for a preschool audience. Through comedy and zippy action, our target audience sees how the characters learn lessons for practical living such as how to: keep track of things that belong to you, practice good habits, clean up a space when you've made a mess, rebound from a failure or embarrassing incident, or resist the urge to blame others for your mistakes.

In each episode Chica develops or encounters a problem that she cannot immediately resolve. Usually her issues involve impulse control, distractibility, judgment, and inter-personal behaviors. She and Kelly usually work on the problem through an adventure-a fantasy transformation to animation-- where Bunji and Stiches come alive and join Chica and Kelly for the problem solving process. The core educational content is primarily socio-emotional development, and Chica learns how to express herself properly, think before she acts, and interact with others effectively.
