Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Tree Fu Tom: aimed at assisting child development Between the ages of 3 and 7 years old we learn the majority of the movement skills we use in our lives. If, during this time, children are not exposed to, and do not or cannot learn, the full range of movements they need then they can suffer long term negative effects. The movements of the Tree Fu spells that children are encouraged and guided to copy are designed to help teach children, and allow them to practise, as many as 12 key developmentally crucial skills/attributes that they need for all future movement. The spells are linked sequences of simple 'foundation movements', the building blocks of all co-ordinated movement. They are designed by child development and movement experts to enhance gross and fine motor skills, strength, balance, co-ordination and neurological development. These skills are crucial for all complex movement, from everyday activities such as eating and dressing, to education and communication skills like writing, to sports, games and any other physical activity. Tree Fu Tom also aims to empower children and build confidence and self-esteem, we hope helping them to: Learn about leadership from Tom, a responsible and capable boy who uses his knowledge of the world, initiative, imagination and common sense to solve problems. Learn about friendship, morals and social and emotional issues. Engage in physical exercise by performing Tree Fu.
