| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | (Digital 40.1) The Edgemont series is designed to entertain its youth audience and also to inform and educate these viewers about the issues that arise in school and at home. Storylines focus on the social and emotional challenges that every secondary school student faces, from forming and maintaining friendships and romantic attachments, to ethical and moral choices and family relationships. The programs illustrate the possible consequences of choices that viewers may face, and these outcomes provide life lessons that are shown plainly to the teen audience. Edgemont further benefits its viewers by opening dialogue with peers and potentially also parents and educators regarding the topics portrayed in the series. Edgemont also touches on significant societal issues and can complement classroom discussions on these topics. These issues range from considerations of diversity, racism and sexual identity, to divorce, teen pregnancy, bullying and alcohol and substance abuse. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | (Digital 40.1) On The Spot is a series tapping knowledge across a series of subject areas, geography, art, technology, science, math, history, language, music, and sports. It also addresses general cultural knowledge. The format is a series of seemingly random questions to individuals who are either of school age or adults past the age of high school graduation. There are three fundamental educational benefits to this format. First, it taps into fact retrieval in the curriculum. Second, and more important, it expands the information beyond fact retrieval. Third, and most important, it addresses what educators call non-cognitive factors for students success. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | (Digital 40.1) Animal Atlas remains on course as a program that is entertaining and engaging to a wide audience while managing to deliver information that would be very welcome in a middle or high school classroom. The series matches the evolved visual intelligence of the young 21st audience by building content with short clips, five-seconds or less in length, and weaving them together in a narrative that keeps a viewer engaged with a compelling narrative overview. The animal kingdom has an innate richness of color, form, and motion and Animal Atlas episodes are built from this richness. The thread that links the clips together is the connection between the differing members of the animal kingdom, including our own species. In a compelling blend, animal examples are pulled from both common experience, such as the horse and cat, and exotic animals like the clouded leopard and the red panda. As the nature of animals is explored, the content and clarity creates a program of exceptional education value. |
