Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	9th Period is a weekly half-hour drama series for teens that teaches positive consequences of thought and action when combined with friendship's effective influences. This series is comprised of three friends who meet every day after school to discuss the day's events. Their exchanges are witty and on par with the subject matter of the social interaction that today's children experience. These three friends are more than friends, they are amateur sleuths. Each show presents a mystery that the children solve by the end of that show. Problem solving, working together toward a common goal, ethics, and morals are conveyed through the thoughts, words, and actions of these three characters: Peyton, Connor, and Meg. Every child will see him/herself in these characters. Peyton, Connor, and Meg share their daily trials and triumphs as they face the following together: bullies-both cyberspace and in your face- thievery, learning difficulties, family conflicts, adversity in and out of the classroom, homelessness, hidden agendas in places as small as the schoolyard to their favorite restaurant, and as large as the town itself.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The "Aqua Kids" have their sights set on saving the oceans of the world. Pollution and abuse of these natural resources are taking their toll. Entire species of fish have disappeared, marine mammals are dying from ingesting plastic, and toxic waste in our waterways is destroying habitat and marine life. The "Aqua Kids" will be looking for adventure and knowledge, and along the way, tackle some ecological dilemmas. This group of knowledge-seeking kids will start right in their own backyards, beginning with local streams that eventually lead to the oceans of the world. By pointing out the problems they encounter, they hope to educate their peers on what they can do to solve these environmental dilemmas. In most cases, it is not too late to change the tide of destruction.
