Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This program explores the origins of hundreds of the world's most influential and important inventions, natural objects, customs, ideas from technology, arts and entertainment, government, nature and more. By teaching the history of the world's most significant ideas and creations, Origins gives children an appreciation of progress and the contributions of others while inspiring dreams of the future. Episode examples include: "The Horse, Bicycle and Motorcycle", three modes of solitary transportation that give us freedom and adventure; and, "Clocks, Calendars & Calculators", three pivotal inventions that enable humankind to organize, plan and keep track of their lives." (This program will air on the station's tertiary digital channel 26.3).
