Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The Young Icons is a television program that provides educational and informational segments exposing the target audience of young viewers to accomplished 'teens' that have set goals and are giving back to their communitiesas mentors, scholars, entrepreneurs and philanthropists. Each guest shares their personal stories of what motivated them to take on their passion and/or focus in their chosen field of endeavor. One guest's message inspires young audiences to "never let age hold us back, no matter how old you may be". Parents play an important role in supporting their 'young icons'. As one parent stated, "You can take a simple idea and turn it into something that can help an awful lot of people." The program provides a motivational and inspirational message that empowers audiences of all ages that hard work; dedication and looking beyond ourselves will pay off for everyone. Each segment of The Young Icons delivers an educational and informational message that supports current social, intellectual and emotional aspects of children ages 13 and up. Attributes and advice emphasized by guests instill a grounded balance of priorities, commitment, and perseverance children can apply to their lives. Based on my extensive experience as an educator and principal in public education, it is my sincere opinion that the series The Young Icons complies with the FCC Children's Television Rules by furthering the educational and informational needs of children 13 years of age and up.
