Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	9th Period is a series comprised of three friends who meet every day after school to discuss the day's events. Their exchanges are witty and on par with the subject matter of the social interaction that today's children experience. These three friends are more than friends, they are amateur sleuths. Each show presents a mystery that the children solve by the end of that show. Problem solving, working together toward a common goal, ethics, and morals are conveyed through the thoughts, words, and actions of these three characters: Peyton, Connor, and Meg. Every child will see him/herself in these characters. Peyton,, Connor, and meg share their daily trials and triumphs as they face the following together: bullies-both cyberspace and in your face- thievery, learning difficulties, family conflicts, adversity in and out of the classroom, homelessness, hidden agendas in places as small as the schoolyard to their favorite restaurant, and as large as the town itself. Ages 13-16

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	WILD AMERICA is targeted to children ages 13-16. The key educational objective of the program is to familiarize children with the animals of the North American content, their interaction with other animals and their environment. Throughout the series emphasis will be placed upon protecting endangered species and the impact that humans have while interacting in their environment.Each episode of the series will be specific to a particular animal. Topics will range from basic food gather, mating, natural enemies, relationships to other animals, and the interaction of the specific ecology on the survival of the species.We expect that children viewing the program will achieve a greater understanding of nature and specific animal species because of the up-close and detailed photography of the series. Through this understanding, it is hoped children will better relate to the natural environment as it exist in North American and learn to protect its natural species
