Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Justin Time is an animated show specifically directed to the preschool audience and always conveys an embedded lesson; it is possible to understand and manage any problem you have by thinking about it creatively. Justin is a little boy who has two imaginary playmates, Olivia (who meets him on his travels) and Squidgy the sponge (who also lives in Justin's bedroom). When Justin has a problem or doesn't want to do something his mother has suggested he daydreams his way into an adventure that takes him to places all around the world. On these adventures, he meets Olivia who guides him through an experience that demonstrates to Justin how he can solve his problem. The show provides many facts about the context the characters visit while on the adventure, but the central point is to teach a lesson about a social/emotional dilemma universally experienced by preschool children.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Zou is a French series based on the Zou books by Michel Gay. Targeted for children age 2-5, each episode explores the kind of learning issues that emerge from every day encounters in the life of a preschool child. If Zou plays his drums too loud, how can he learn to play them softly? If Zou wants a car, but has only a cardboard box, how can he transform it? If Zou lost his friend's favorite airplane, how does he explain? How can Zou be successful at baking a cake if he has never done it before? How can Zou muster the courage to go to the doctor when he's afraid of injections? These are big issues in the mind and life of a preschool child and Zou demonstrates how to have fun, ask for help, listen to advice, and try different solutions until he can commit to the strategy that works. The show says it, shows it, and does it, in the embedded and naturally occurring lesson within each episode.

Number of Preemptions Rescheduled	4
Length of Program	30 mins
Age of Target Child Audience	2 years to 5 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The Chica Show features a five-year-old "baby" chick who spends her days with her parents in their costume shop, the Coop. The shop's one employee, Kelly, doubles as Chica's nanny and the ensemble is rounded out with Bunji, a large floppy eared rabbit and Stitches, a straw mannequin that sits in the window. In each episode Chica develops or encounters a problem that she cannot immediately resolve. Usually her issues involve impulse control, distractibility, judgment, and inter-personal behaviors. She and Kelly usually work on the problem through an adventure-a fantasy transformation to animation-- where Bunji and Stitches come alive and join Chica and Kelly for the problem solving process. The core educational content is primarily socio-emotional development, and Chica learns how to express herself properly, think before she acts, and interact with others effectively. She often learns that it takes hard work and practice to become proficient at different skills.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Tree Fu Tom is a live action/animated series about a little boy who lives in a rural area and has a rich fantasy life in the woods behind his home. Tom uses specific movements to summon up magic powers that permit him to morph into an animated hero and fly around in Treetopolis, the fantasy version of his woods. While in Treetopolis, Tom and his friends, Ariella, Twigs, Squirmtun and Zigzoo will invariably run into a problem or disaster that needs fixing. Tom calls upon the audience to practice original dance moves that will bring him "Big World" magic so he and his friends can resolve their challenge of the day. Educational messages reinforce positive socio-emotional content, with examples that model: being loyal to good friends, knowing how to ask for help, doing the right thing instead of what is convenient, making the effort to share rather than being selfish or relying on teamwork in order to accomplish a goal.
