Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This program has two main goals: one to encourage children to value, respect and better understand a variety of cultures, perspectives, traditions, languages and experiences; and second to support children in building their understanding of the English language, especially vocabulary. The show features 10 year old twins Maya and Miguel, their loving family, their pet parrot Paco, friends and their widely diverse neighborhood. Every episode turns and twists into an adventure for the twins especially when Maya's usual well-intended deeds turn into big messes, fortunately they always manage to fix. Maya & Miguel are both bilingual, they promote a positive attitude toward knowing and learning more than one language. This show presents a positive, culturally rich portrayal of a Latino family. On September 15th, the Network inadvertently repeated the third segment of Maya and Miguel. At 9:46 am, after the commercial break ended, the master control operator erroneously repeated the 3rd segment of the program in place of the scheduled 4th segment. The Network will make good the program in its entirety during the fourth quarter, and it will air in its second home with prior promotion.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	A significant purpose and key educational objective of this program is to present animals, birds, and insects in their natural environments in order to engage the curiosity and developing intelligence of boys and girls. There is a special emphasis on nature, science, the adaptation and survival of species, and the role of species in human planetary welfare. Each episode examines topics of geography, ecology, and the ways in which non-humans, animals, birds, and insects adjust to the complexities of their specific habitats in the various continents and oceans that make up our planet. Using original footage, music, and humor, this series presents information about where animals live, how they build their unique dwellings, the tools they use for foraging, the migrations of animals due to climatic changes, and how they care for and protect their offspring. The main purpose of the series is to educate and inform young children about a variety of species and about how animals and humans are interdependent.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	"CHAT ROOM" is a brand new half-hour weekly educational series designed to inform, educate, and entertain children 16 & under (specific target audience is 13-16) through reenacting teen-oriented dilemmas and discussing them in an open and honest format. More than any other group, teens are on the frontlines of dealing with complex subjects as they stand at the crossroads between childhood and adulthood. "CHAT ROOM" may not have all the answers but it offers a place where young people can watch and discuss the problems they face. "CHAT ROOM" provides a compelling look at real-life situations that happen to today's teens as dramatized by teen actors. Our adult host and teen panel then discuss the issues presented in a direct and forthright manner. This program is not intended to be preachy or pedantic. The goal is to present issues that are real and raw and discuss the pros and cons of each situation in a freeflowing environment.
