| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | <p>Jack Hanna's Into the Wild continued the expected high quality, educational program content that has become the signature of Jungle Jack Productions. The program topic is suitable for both the secondary classroom and general audience with content addressing several academic outcomes designated by both state and national life science standards. Shot from a number of photographic perspectives. the viewer is introduced to the biodiversity of the area, how animals are adapted to the environment, and the changes humans have imposed on the environment as well as the positive impact of local conservation efforts in the region. While Jack Hanna introduces the habitat and the wildlife, regional guides are given the expert status and the viewer becomes engaged in the natural environment with the same enthusiasm as Jack's family. The sub-note feature added educational value to the program content and enhanced the scientific foundation. It is also important to note that in addition to the educational content of the program. Jack brings the affective aspect to wildlife education. engaging the emotional appeal of the wild animals and the conservation message to encourage the audience to take an active interest in preserving wildlife. Combining data-oriented scientific information with concern for the conservation status of wildlife and the environment enforces the educational value and impact of the program.</p> |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | The mission of Eyewitness Kids News is to produce a weekly news program that will provide information and news to kids in a manner that is compelling as well as highly entertaining. It is designed to appeal to the audience on its own level. The focus of the program is young people,always letting them tell their stories in their own words. The large, diverse news anchor team will be unique in television and have great appeal to kids who will identify and emulate them. This program will serve the audience in a way that will make a real difference in their lives. It will insert the clear voice of the kid into the adult-dominated media and provide a unique perspective to the news that is not currently available on network television. This is a unique way of doing business in the crowded world of television news. There is no current news programming that features actual kids reporting to other kids on television. There have been shows by adults working with kids but none that a young audience can literally identify with. EKN will fill that void and become the first program in history that will develop the next generation of news viewers and high school. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Jack Hanna's Into the Wild continued the expected high quality, educational program content that has become the signature of Jungle Jack Productions. The program topic is suitable for both the secondary classroom and general audience with content addressing several academic outcomes designated by both state and national life science standards. Shot from a number of photographic perspectives.the viewer is introduced to the biodiversity of the area, how animals are adapted to the environment, and the changes humans have imposed on the environment as well as the positive impact of local conservation efforts in the region. While Jack Hanna introduces the habitat and the wildlife, regional guides are given the expert status and the viewer becomes engaged in the natural environment with the same enthusiasm as Jack's family. The sub-note feature added educational value to the program content and enhanced the scientific foundation. |

It is designed to appeal to the audience on its own level. The focus of the program is young people, always letting them tell their stories in their own words. The large, diverse news anchor team will be unique in television and have great appeal to kids who will identify and emulate them. This program will serve the audience in a way that will make a real difference in their lives. It will insert the clear voice of the kid into the adult-dominated media and provide a unique perspective to the news that is not currently available on network television. This is a unique way of doing business in the crowded world of television news. There is no current news programming that features actual kids reporting to other kids on television. There have been shows by adults working with kids but none that a young audience can literally identify with. EKN will fill that void and become the first program in history that will develop the next generation of news viewers and high school. |
