| Describe the<br>educational<br>and<br>informational<br>objective of<br>the program<br>and how it<br>meets the<br>definition of<br>Core<br>Programming. | The half hour weekly series, Sea Rescue, features the rescue, rehabilitation and in many instances release back into the wild of ocean wildlife. Produced for ages 13-16, Sea Rescue offers educational and entertaining television by demonstrating the welfare and medical benefits that rescue and rehabilitation programs provide animals. Viewers will also learn that there's a reciprocal benefit: rescued animals provide valuable insight into their biology and ecology. This information adds to the pool of knowledge necessary to conserve threatened and endangered species. Each week, Sea Rescue will leave its audience inspired by the real life stories of the featured animals and rescuers and with a fuller understanding of the rich array of sea life with which we share our planet. |

| Describe the<br>educational<br>and<br>informational<br>objective of<br>the program<br>and how it<br>meets the<br>definition of<br>Core<br>Programming. | On the Spot was created by the award-winning producers of the long running Educational and Informational show, Animal Atlas, now in its seventh successful season of national syndication. Last year, the National Governors Association and Council of Chief State Officers released the Common Core State Standards Initiative, an attempt to set a national curriculum to bridge the standards gap between states. The content of On the Spot, a 30-minute E/I program for teens ages 13+, is based on the Common Core State Standards. The show uses an entertaining on the street format to test how well young people know the information contained in their own national curriculum. Then, On the Spot explains the answer to each question. The pedagogical approach of testing first and explaining the answer second has been shown to enhance retention and understanding. On the Spot challenges viewers to recall middle and high school knowledge about history, science, math, English, second languages, health, geography, art, music, and technology, and then teaches them the answer. |

| Describe the<br>educational<br>and<br>informational<br>objective of<br>the program<br>and how it<br>meets the<br>definition of<br>Core<br>Programming. | Elizabeth Stanton's Great Big World provides dynamic core programming in the areas of particular concern to young teens ages 13-16; including global, social, educational, and wellness issues. Award-winning teen hostess Elizabeth Stanton and select celebrity friends travel around the world volunteering in areas of specific need ranging from feeding the hungry in the slums of Kenya to bringing hearing aids to Vietnamese neighborhoods whose citizens have experienced high rates of profound deafness and hearing loss. Great Big World offers a dynamic television experience for teens combining the exciting, fun, and diverse experiences of world exploration with the life-changing volunteer opportunities available in these same areas. Various age-appropriate global issues are introduced to the viewing audience through in-depth and thoughtful interviews with Elizabeth, her travel buddies, and the friends they meet along their journey. In addition, Elizabeth and friends personal hands on experiences in the field both inspire teens to engage in selfless, helping behaviors in addition to educating them on where and how to find volunteer opportunities. |

Describe the Early and middle adolescence is an exciting yet a challenging period in one's life. Adolescents across the educational demographic spectrum and from all walks of life grapple with a number of pivotal but normal developmental milestones, such as preparing for more independence and responsibility, and experiencing change in relationships with family and peers. With increased self reliance, young people make more of their own informational objective of choices. And all the while, one cannot overlook that they grow in a dynamic, diverse, and complex world that offers both opportunities and social challenges. The goals of the series are to encourage the 13 to 16 the program year old audience to explore, discover, and learn strategies to achieve personal dreams; learn about the personal attributes important for achieving dreams; explore volunteerism as an opportunity to build character and to uncover personal passions; and gain knowledge about life skills necessary to Live Life and definition of Win. Describe the It is during the adolescent years that career exploration, planning, education, and decision-making begins. There is no question that a career in one of the multimedia industries is among the most popular career educational choices of adolescents. Although many feel their calling is for a more obvious on-camera career in acting, there are also a number of behind the screen pursuits that make for fulfilling career choices. Made in informational Hollywood: Teen Edition (MIH:TE) was created by Connection III Entertainment Corp. to provide career objective of information and advice from top Hollywood professionals to 13- to 16-year-old viewers so they can explore the program and learn about the technical, artistic, creative, business, and administrative careers that are a part of the motion picture, television, music video, and home entertainment industries (Berry & O'Neal, 2006, p. 1). To guide the production of MIH:TE, Berry (2006) developed a career and guidance model that offers a definition of framework for the development of each episode.

The series Zoo Clues will keep 13-16 year-old viewers engaged for 30 minutes with the nearly infinite visual richness, animal characteristics, and wild range of animal behaviors. Beyond its target audience, both older and younger audiences should find this look across the amazing world of animals fascinating. Beyond basic engagement, Zoo Clues will leave viewers with a meaningful perspective about animals and meaningful comparisons to their own human characteristics. The variety of the animal kingdom is truly odd and bizarre enough to read like fiction, but the clever narration of Zoo Clues links disparate information together in a way that always makes clear that what viewers see is real, natural, and relates to their own life in the real world. Grouping animal behaviors and physical characteristics into groups from a human point of view holds the series thematically together.

| Describe the<br>educational<br>and<br>informational<br>objective of<br>the program<br>and how it<br>meets the<br>definition of<br>Core<br>Programming. | On the Spot was created by the award-winning producers of the long running Educational and Informational show, Animal Atlas, now in its seventh successful season of national syndication. Last year, the National Governors Association and Council of Chief State Officers released the Common Core State Standards Initiative, an attempt to set a national curriculum to bridge the standards gap between states. The content of On the Spot, a 30-minute E/I program for teens ages 13+, is based on the Common Core State Standards. The show uses an entertaining on the street format to test how well young people know the information contained in their own national curriculum. Then, On the Spot explains the answer to each question. The pedagogical approach of testing first and explaining the answer second has been shown to enhance retention and understanding. On the Spot challenges viewers to recall middle and high school knowledge about history, science, math, English, second languages, health, geography, art, music, and technology, and then teaches them the |

Describe the Culture Click is a weekly half hour series that explores the genesis of and reasons behind cultural events that permeate our everyday lives. Developed and produced for viewers aged 13-16, host Nzinga Blake opens each episode from her virtual reality set with a list of what is trending on search engines that week. These topics will serve as a jumping off point for a deep dive into the culture viewers will embrace. Each informational week Nzinga will analyze and answer the questions that shape our society using the power and speed of the internet and user generated questions and content. Experts in pop culture will join her to add insight and the program historical perspective. And most importantly viewers will come away with a weeks worth of aha moments to share with their friends and family. Six degrees of separations takes on a whole new meaning and ther is no limit to what viewers will learn when they experience Culture Click.

Hosted by wildlife expert Casey Anderson, Expedition Wild is a weekly half-hour series designed to educate and inform viewers aged 13-16. This live-action series is an innovative and action-packed odyssey through North America's wild places - revealing a rare glimpse into the beauty and complexity of the natural world. Viewers follow Casey on a series of breathtakingly wild adventures: he'll paddle the Grand Canyon, ski with informational Wolverines in British Columbia, observe Mountain Lions in Montana, stake out the scavengers of Yellowstone, investigate a raven's nest, observe Polar Bears on Alaska's northern slope, and climb to rugged extremes in pursuit of Northern Maine's Black Bears. With Casey's expertise, audiences are witness to a rare and personal experience with endangered species, some deadly, others dashing, in the stunning natural ecosystems that they call home.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming. The half hour weekly series, Ocean Mysteries, offers a fresh approach to the quest for aquatic understanding by blending stories of fascinating sea creatures, comparisons to popular land animals, and analogies to human experience. Hosted by Jeff Corwin, Ocean Mysteries is produced for ages 13-16 and beyond by showing how animals share the same behaviors, challenges and triumphs that humans do. From exciting rescues of abandoned animals to unexpected conflicts in the family dynamics of the mingling species, viewers will get to know and care about these heroes, and all of the fascinating life teeming in our oceans.

| Describe the<br>educational<br>and<br>informational<br>objective of<br>the program<br>and how it<br>meets the<br>definition of<br>Core<br>Programming. | On the Spot was created by the award-winning producers of the long running Educational and Informational show, Animal Atlas, now in its seventh successful season of national syndication. Last year, the National Governors Association and Council of Chief State Officers released the Common Core State Standards Initiative, an attempt to set a national curriculum to bridge the standards gap between states. The content of On the Spot, a 30-minute E/I program for teens ages 13+, is based on the Common Core State Standards. The show uses an entertaining on the street format to test how well young people know the information contained in their own national curriculum. Then, On the Spot explains the answer to each question. The pedagogical approach of testing first and explaining the answer second has been shown to enhance retention and understanding. On the Spot challenges viewers to recall middle and high school knowledge about history, science, math, English, second languages, health, geography, art, music, and technology, and then teaches them the |  |

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.

Regularly Scheduled Animal Atlas remains on course as a program that is entertaining and engaging to a wide audience while managing to deliver information that would be very welcome in a middle or high school classroom. The series matches the evolved visual intelligence of the young 21st century audience by building content with short clips, five-seconds or less in length, and weaving them together in a narrative that keeps a viewer engaged with a compelling narrative overview. The animal kingdom has an innate richness of color, form, and motion and Animal Atlas episodes are built from this richness. The thread that links theclips together is the connection between the differing members of the animal kingdom---including our own species. In a compelling blend, animal examples are pulled from both common experience, such as the horse and cat, and exotic animals like the clouded leopard and the red panda. As the nature of animals is explored, the content and clarity create a program of exception education value.

| Describe the<br>educational<br>and<br>informational<br>objective of<br>the program<br>and how it<br>meets the<br>definition of<br>Core<br>Programming. | On the Spot was created by the award-winning producers of the long running Educational and Informational show, Animal Atlas, now in its seventh successful season of national syndication. Last year, the National Governors Association and Council of Chief State Officers released the Common Core State Standards Initiative, an attempt to set a national curriculum to bridge the standards gap between states. The content of On the Spot, a 30-minute E/I program for teens ages 13+, is based on the Common Core State Standards. The show uses an entertaining on the street format to test how well young people know the information contained in their own national curriculum. Then, On the Spot explains the answer to each question. The pedagogical approach of testing first and explaining the answer second has been shown to enhance retention and understanding. On the Spot challenges viewers to recall middle and high school knowledge about history, science, math, English, second languages, health, geography, art, music, and technology, and then teaches them the answer. |  |  |

Designed to educate and inform viewers aged 13-16 and the entire family this inspiring series invites viewers to share in the experiences of Dr. Pol. An enthusiastic and naturally-inclined and well-rounded scholar, Dr. Pol has been practicing veterinary medicine for over 35 years. Caring for more than 19,000 patients, Dr. Pol has seen it all. Specializing in large farm animals, Dr. Pol, his family and veterinary staff also care for animals of all shapes and sizes. Each week audiences will have a chance to understand the challenges and rewards of this fulfilling profession and learn that the work doesn't end at the clinic; Dr. Pol often takes his talents to the road by helping sick or injured animals on neighboring farms and ranches. With the added benefit of Dr. Pol's expert analysis and on-screen factoids, viewers will have the opportunity to learn about the biology and behavior of various domesticated animals and livestock. Unstoppable and unflappable, this Doc is a legend in the community and provides an entertaining view of the veterinary profession. |
