Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Animal Atlas is an entertaining and educational half-hour program that explores the world of animal wildlife, promoting a better understanding of how various animal species live and what they need to survive. With an entertaining narrative, the series combines focused examinations of certain topics such as "Animal Appetites" (which explores the various diets of animals along with information about how animals catch and eat their food, how diets determine their lifestyle, etc.), "Animal Antics", (a hilarious look at the crazy physical antics and talents of certain species), "Animal Babies" (an intimate look at babies of various species, how they are born, how they are raised and the difficulties and delights of growing up), along with shows which focus solely on certain animals such as elephants, bears, and monkeys. In these shows a thorough and entertaining exploration of the specific animal takes the viewer into that animal's world as we see where it lives, how it eats, how it plays, how the family unit operates, and what threatens and supports its survival. Animal Atlas also promotes responsibility toward wildlife issues by educating the viewer about endangered species and wildlife habits, as well as informing viewers how to support wildlife conservation.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	ON THE SPOT adopts a modified question and answer format familiar to broadcast network viewers, including the targeted age. The questions fall under curriculum core areas of knowledge in social studies, science, the arts, civics, and mathematics. The format allows for a wide range of topics and allows topics to be blended, which is a serious asset. The integration of core curriculum areas is a traditional goal in education and while ON THE SPOT doesn't support the deeper integration that would be done in a classroom, the energetic blend is a great example of taking curriculum out of their separate boxes and making them a uniform part of why knowledge can be important. The series also succeeds in modeling all ages, ethnicities, and both genders as successful, knowledgeable individuals. Although there are right and wrong answers, there are right answers from people that every audience member can identify with. This is of too-often misunderstood importance for the targeted 13-16 year-old age. Identifying with a successful representative of your own group is extremely important. But it is also very important to learn respect for those outside your own group - and this series does that very well.

Days/Times Program Regularly Scheduled	Saturdays, 12:30pm (07/04/15 - 09/05/15)
Total times aired at regularly scheduled time	10
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Animal Atlas is an entertaining and educational half-hour program that explores the world of animal wildlife, promoting a better understanding of how various animal species live and what they need to survive. With an entertaining narrative, the series combines focused examinations of certain topics such as "Animal Appetites" (which explores the various diets of animals along with information about how animals catch and eat their food, how diets determine their lifestyle, etc.), "Animal Antics", (a hilarious look at the crazy physical antics and talents of certain species), "Animal Babies" (an intimate look at babies of various species, how they are born, how they are raised and the difficulties and delights of growing up), along with shows which focus solely on certain animals such as elephants, bears, and monkeys. In these shows a thorough and entertaining exploration of the specific animal takes the viewer into that animal's world as we see where it lives, how it eats, how it plays, how the family unit operates, and what threatens and supports its survival. Animal Atlas also promotes responsibility toward wildlife issues by educating the viewer about endangered species and wildlife habits, as well as informing viewers how to support wildlife conservation.

Program Title	On The Spot (main digital 65.1)
Origination	Syndicated
Days/Times Program Regularly Scheduled	Saturdays, 1:00pm (07/04/15 - 09/13/15)
Total times aired at regularly scheduled time	11
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	ON THE SPOT adopts a modified question and answer format familiar to broadcast network viewers, including the targeted age. The questions fall under curriculum core areas of knowledge in social studies, science, the arts, civics, and mathematics. The format allows for a wide range of topics and allows topics to be blended, which is a serious asset. The integration of core curriculum areas is a traditional goal in education and while ON THE SPOT doesn't support the deeper integration that would be done in a classroom, the energetic blend is a great example of taking curriculum out of their separate boxes and making them a uniform part of why knowledge can be important. The series also succeeds in modeling all ages, ethnicities, and both genders as successful, knowledgeable individuals. Although there are right and wrong answers, there are right answers from people that every audience member can identify with. This is of too-often misunderstood importance for the targeted 13-16 year-old age. Identifying with a successful representative of your own group is extremely important. But it is also very important to learn respect for those outside your own group - and this series does that very well.
