Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The Real Winning Edge series seeks to expose youth to other youth who have consistently made the behavioral choices that have helped them to have a great sense of internal significance and acceptance, which results in a more self directed, stable personality. They are more able to negotiate the "challenges" inherent in life. The youth who are chosen to be profiled on the series are chosen for their adoption of pro-social values and principles that have become the ethos of their behavior. Thus the characteristics demonstrated by the stories of these youth give rise adherence to these sound choices that have given them "the real winning edge" in life. This program promotes the values through these very engaging positive youth role models, who are introduced by celebrities in the same talent field as the youth. The celebrities reinforce the values by calling attention to these youths' qualities as they are exhibited in the program.
