Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Come spend a 'day in the life' with the monsters at Wimzie's house and you'll never want to go home. It's the magical kind of daycare that leads to delightful adventures for the pre-school child. All of the characters are wild and wooly on the outside - but definitely human on the inside.After spending a half hour in this very special home away from home, no one will leave the world of Wimzie unchanged. It is the world where the real and the imaginary come together, where self esteem is the order of the day, where the emotions and the relationships of today's preschoolers, who are growing up to be ten in the year 2000, are on the top of the list of story material. Five year old Wimzie and her mother Graziella, an airline pilot, live in Yaya's house as does Rousso, Yaya's best friend - even if Yaya is at least one hundred years and fifty years old (and counting) and Russo is much more than a hundred years her younger. Graziella is more than ecstatic to have found a warm and comfortable home as well as a loving environment for her daughter, Wimzie, while she is off on her somewhat unorthodox work schedule flying around the world. It is within this setting that we meet Jonas, Archibald, Loulou, Horace, and Azuline as they work out the relationships that grow out of being together every day, of growing up just a little bit every day. They learn not only about themselves but also about the world outside the door: music, nature, art and fun are woven with a touch of humour throughout a storyline solidly crafted on socio-affective objectives. Music, songs, the art of discovery. Rhymes, magic, the sharing of secrets with friends. Storytime, word games, the acceptance of "your" way. This is what Wimzie brings into the viewers' home. A daycare full of little monsters - what could be more real? Conflict, difficulty, resolution, triumph. Laughter, tears, anger and joy. Wimzie is a world of enchantment.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The Busy World of Richard Scarry is designed for two to five year olds. Like the Scarry books themselves the TV series uses themes that are congruent with the interests of pre-school and early elementary school children. These include - love of parents - mastery (of all the motor, language and social skills that they see in the world around them) - power (who calls the shots) - possession, (It's mine!) - personal routines -- eating, dressing, sleeping - family living -- cooking, recreation, celebration. The aim of the series is to make television a positive force in the lives of these children: - to stimulate imagination and foster vicarious play. - to teach pro-social behavior: generosity, friendliness, persistence, altruism, understanding of others' points of view, empathy, acceptance of others' idiosyncrasies

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The Mystery Hunters are Araya and Christina, regular kids with inquisitive minds, who travel the globe to investigate the sites and delve into the tales which have baffled people throughout the ages - looking for the Loch Ness Monster, unraveling a smelly mummy, searching for Princess Anastasia, and learning the true story of King Tut. Armed with video cameras and their instincts, they gather facts and meet the experts, debunking common myths and offering explanations for legends, spooky stories, and unexplained phenomena. They use critical thinking and scientific reasoning to show that things are not always what they seem. Back at the Discovery Mystery Lab, Doubting Dave, the resident skeptical scientist, challenges viewers to send in their own mysteries, and then tackles the questions with experiments and logical explanations. Dave also assists the Mystery Hunters with their investigations.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The Busy World of Richard Scarry is designed for two to five year olds. Like the Scarry books themselves the TV series uses themes that are congruent with the interests of pre-school and early elementary school children. These include - love of parents - mastery (of all the motor, language and social skills that they see in the world around them) - power (who calls the shots) - possession, (It's mine!) - personal routines -- eating, dressing, sleeping - family living -- cooking, recreation, celebration. The aim of the series is to make television a positive force in the lives of these children: - to stimulate imagination and foster vicarious play. - to teach pro-social behavior: generosity, friendliness, persistence, altruism, understanding of others' points of view, empathy, acceptance of others' idiosyncrasies

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Safari provides core programming in the areas of global ecology, wildlife biology and species conservation and preservation. Emmy award-winning host and wildlife expert John Ross travels to the farthest reaches of the world to bring the viewers face to face with some of the planet's most interesting animals. Safari offers a dynamic television experience for teens - with the exciting experience of exploring the fascinating world of wildlife and at the same time discovering what needs to be done to protect the animals and their habitat so that they can live on in the wild. Various age-appropriate global wildlife and ecology issues are introduced to the viewing audience with in-depth and thoughtful explanations.
