Pajanimals are a group of four preschool aged puppets who live together in house with their off-screen mother and father. We meet them in the bedroom, a dormitory of sorts, where they show us their nighttime routine of brushing their teeth and having quiet conversation before falling off to sleep. The quiet time, always turns into a discussion that results in a dream-like adventure to solve a problem, such as overcoming shyness, making a new friend, or dealing with a bully. The adventure takes place in several nighttime dream locales where special friends help them work through the socio-emotional problem of the day. Specific approaches to managing the problem are demonstrated and practiced during the adventure, and the children return home confident, getting ample rest for today and facing their issues tomorrow.

While on the adventure he is accompanied by Olive, a knowledgeable imaginary playmate, and Squidgy the morphing flying sponge, who provides commentary and comedy along the way. Justin's lessons involve learning, for example, that it takes focus to achieve success, failure can teach what we need to do to succeed next time, or when one path to solve a problem doesn't work, you can find another way to get to your goal. The underground spy and influencer who defines the ethos of Lazy Town is Robbie Rotten, and he is determined to ruin the health and fitness practices of Stephanie and her friends. When the kids get into difficulties with Robbie Rotten, it is Sportacus, gymnast/athlete who comes to the rescue from his home in a spaceship that hovers over earth, prepared to answer to any call for help. Describe the educational and informational objective of the program and how it meets the definition of Core Programming. The shop's one employee, Kelly, doubles as Chica's nanny and the ensemble is rounded out with Bunji, a large floppy eared rabbit and Stitches, a straw mannequin that sits in the window. In each episode Chica develops or encounters a problem that she cannot immediately resolve. Usually her issues involve impulse control, distractibility, judgment, and inter-personal behaviors. She and Kelly usually work on the problem through an adventure-a fantasy transformation to animation-- where Bunji and Stiches come alive and join Chica and Kelly for the problem solving process. The core educational content is primarily socio-emotional development, and Chica learns how to express herself properly, think before she acts, and interact with others effectively. She often learns that it takes hard work and practice to become proficient at different skills.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	WHAT COLOR IS YOUR DOG? is an educational/informational series especially geared to ages 13 - 16. In this entertaining weekly half hour program, Joel Silverman, the well-known Hollywood animal trainer and author, demonstrates how to train dogs and cats with the help of his furry friends either in-home or on location. The visual instructions are an easy way to learn the art of training our four-legged family companions for this age group. Also, each week other animal trainers will talk about their experiences with dogs and cats - especially the specific training needed for a film, television program or commercial. We call this segment "Animal Actors." In the "Lessons with Luke" & "Lessons with Jax" segments, kids and puppies will team up together in this portion of the show. The kids will aid Joel in teaching a German Shepherd puppy (Lessons with Jax) or a Havanese puppy (Lessons with Luke) a new behavior each week. Our "Dog Training" segment dedicated to helping the young pet owner, in their home, to overcome their most troubling issue with their pet. Mr. Silverman demonstrates exactly what is required to eliminate the problem. This is helpful for any household who has a dog and wants to improve obedience. Many of these segments are filmed with untrained dogs from the Nevada Humane Society. Never heard of a trained cat? Well, Mr. Silverman knows how and will show the audience the art of training such an "untrainable" being in our "Cat Training" segment. In some segments, Mr. Silverman interviews Hollywood cat trainers with their cats, and much of what the viewers learn can be applied to the training of their cat. Other weekly segments include "Working Dog" and "Advanced Behavior" both entertaining and educational. The skills learned in each half hour is not only to improve training skills but will teach young people patience, kindness, responsibility, determination and understanding - all needed in life, as well. WHAT COLOR IS YOUR DOG? will display the "E/I" icon throughout the broadcast and is closed-captioned for the hearing impaired.
