| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Dive Olly Dive offers a collection of boy and girl characters each with their own unique characteristics and strengths. Skid, although something of a bully, comes around in each episode and is never cruel. The team is supportive of one another and lessons of predicting, considering and discovering are cleverly interwoven into an entertaining storyline. Although the series is standard in terms of story telling, that is, it does not incorporate some of the elements that we know extend a series' power in terms of teaching, Dive Olly Dive offers relatable characters and episodes that are clearly created with the intention of supporting a child's learning. In particular this series supports a child's social development and problem solving skills. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Doki offers fun characters each with their own strengths and weaknesses (therefore offering a broad representation of possible at-home-viewers). The team is supportive of one another and the "world" of Doki and its characters reflects the media landscape of today's child. Although the most supportive programming involves the audience through presentation of material in a way that demands intellectual interaction on the part of the viewer (i.e., encouraging the viewer to assist on -screen characters to solve problems), and this series might benefit from this type of "interaction," Doki does offer enthusiastic characters, real questions, and an "arguably" realist presentation of discovery. Combined, these elements will keep children engaged and support their learning. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | The program's primary focus is on events at an elementary school filled with animal children and their teachers. The title character and his classmates are a recurring group of diverse creatures. The challenges in each episode are usually social or ethical dilemma with viewers learning about honesty, responsibility, friendship and other prosocial behavior. The programs illustrate that children can overcome new obstacles, accept the difference of others, become aware of their responsibilities and support and help those in need. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Animated barnyard animals encounter everyday situations that raise a "question of the day." Their problem solving is similar to the standard scientific inquiry "asking, testing, and finding a way." The characters focus is on science and nature teaching the program's preschool audience about the world and about how to go about answering everyday questions. The series carefully builds the child viewer's knowledge by offering a question and then little by little adding to the information necessary to answer that question. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | An animated program for children 4 thru 7 with its primary focus on instruction. The program series mantra is "knowing stuff in our power." The title character tells stories of his childhood to his grandchildren to show them the importance of play and imagination. Ultimately, imagination helps to solve problems and work together. Each episode will focus on educating and entertaining through stories of adventure and imagination. Included as plot points are struggles between imaginary play and electronic toys illustrating that the program is truly speaking to today's children. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Babar, based on the books by Laurent de Brunhoff, is an animated show about a young orphaned elephant who finds the strength to rise above the challenges he faces, including the death of his parents, as he journeys through life. Each episode of the show develops a social emotional message such as taking responsibility, being patient and persistent in hard work, respecting people's privacy, learning to cope with unforeseen changes, and being honest. These messages emerge from the need to resolve a dilemma that is faced by Babar, one of his friends or family members. |          |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Based on Mordecai Richler's books, Jacob Two-Two is an animated show about the challenges of a little boy, the youngest of five siblings. Jacob is so small for his age he often repeats himself just so he can be heard. His parents are compassionate, but his siblings are not, and Jacob has to be resourceful and inventive in learning how to assert himself, overcome his fears, get along with others, and still enjoy his childhood. He manages to turn even the most inconsequential events into adventures with his friends, Buford and Renee. Every adventure teaches him a life lesson, from learning how to be responsible to figuring out how to manage a bully. In addition, there are implicit lessons that promote a love for learning and language development usually conveyed through Jacob's father, a full-time writer. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Pearlie is an animated comedy series based on the children's book series, Pearlie the Park Fairy by Wendy Harmer. Pearlie is an optimistic, light hearted fairy who sees the good in everybody, but often gets into situations because her desire to help is larger than her capacity to deliver. Aimed for an audience within the 6 to 10 year old range, episodes focus on the importance of following the rules, using good judgment and learning how to avoid getting into trouble. Since Pearlie was appointed by Fairy Head Quarters to keep Jubilee Park in sparkling order, she has constant challenges with her basic goal of keeping everyone happy and making sure the park functions smoothly. Pearlie's nemesis and cousin, Saphira, often takes advantage of Pearlie's good nature which requires that Pearlie must also frequently outwit the park bully. In each episode, Pearlie approaches new tasks and problems with a great deal of enthusiasm, but without the organization required to get the job done. Through plot developments and with the assistance of her friends, Opal and Jasper, she learns what to do and what not to do in each situation so the park can be restored to order. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Willla is an animated series centered on a six-year-old girl, and her menagerie of animals. Willa lives at home with her father and pets: an elephant, a giraffe, a pair of performing seals, a bear, penguins, and lots of rabbits. In each episode, Willa faces a challenge at home, in school or in her neighborhood. With her animals and best friend Dooley as key elements of her team, Willa works on solutions to overcome her challenge. Together they find way to maintain healthy friendships, experience success, develop competence and become altruistic. With help from her animal friends, Willa figures out how to earn the things she wants by helping others. She learns to appreciate the friends that she has rather than trying to change to fit in with the "cool" group. She realized that asking questions is better than jumping to conclusions. Whether at school, home or in the neighborhood, Willa finds a way to analyze her situation and learn from experience. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Animal Atlas provides visual information from original and detailed footage of animals. The fast moving clips of a variety of species allows viewers to compare and contrast differing physiologies and habitats. The animal subjects are presented as they move informally and comfortably through their living activities, and the narration is well informed and unobtrusive. The program uses an interactive segment with multiple choice questions about the animals covered. These questions have just the right level of engagement and are a worthwhile component of the program. The program's constant reinforcement of species differentiation will facilitate learning for young people between the ages of 13 to 16. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Mickey, a curious and adventurous Shetland Sheepdog, is a city dog who has just moved to a farm with his best friend, 14-year-old Megan. Each episode follows Mickey as he experiences new things on the farm. Often Mickey gets confused or into a bind, but with the help of Megan, his friends Guy (a wise goat) and Fiona (an energetic ferret), and their Magic Book, a solution is always found and Mickey learns something new. The show is narrated by Sunny (the sun) who is always watching over the activities on the farm. Episodes end with an original song, which reiterates new things learned. The show is intended to motivate children to explore new things, ask questions, problem-solve and make new friends. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Set in medieval times, Jane and the Dragon is an animated show based on Martin Baynton's best selling book about a middle class medieval girl named Jane. Jane is raised in the Royal Court as a Knight in Training after she demonstrates her courage by leaving the castle to conquer the local dragon. The giant green Dragon, whose sense of humor exceeds his ferocity, instead becomes Jane's best friend and a part of the castle community. In each episode, Jane encounters a challenge that tests her problem solving skills and requires her to demonstrate her strength of character as a Knight of the King's Guard. Sometimes Jane learns a moral lesson, and other times she uses her analytical ability to illustrate how a problem can be made less complicated and easily solved. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Doki offers fun characters each with their own strengths and weaknesses (therefore offering a broad representation of possible at-home-viewers). The team is supportive of one another and the "world" of Doki and its characters reflects the media landscape of today's child. Although the most supportive programming involves the audience through presentation of material in a way that demands intellectual interaction on the part of the viewer (i.e., encouraging the viewer to assist on-screen characters to solve problems), and this series might benefit from this type of "interaction," Doki does offer enthusiastic characters, real questions, and an "arguably" realist presentation of discovery. Combined, these elements will keep children engaged and support their learning. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Dive Olly Dive offers a collection of boy and girl characters each with their own unique characteristics and strengths. Skid, although something of a bully, comes around in each episode and is never cruel. The team is supportive of one another and lessons of predicting, considering and discovering are cleverly interwoven into an entertaining storyline. Although the series is standard in terms of story telling, that is, it does not incorporate some of the elements that we know extend a series' power in terms of teaching, Dive Olly Dive offers relatable characters and episodes that are clearly created with the intention of supporting a child's learning. In particular this series supports a child's social development and problem solving skills. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Doki offers fun characters each with their own strengths and weaknesses (therefore offering a broad representation of possible at-home-viewers). The team is supportive of one another and the "world" of Doki and its characters reflects the media landscape of today's child. Although the most supportive programming involves the audience through presentation of material in a way that demands intellectual interaction on the part of the viewer (i.e., encouraging the viewer to assist on -screen characters to solve problems), and this series might benefit from this type of "interaction," Doki does offer enthusiastic characters, real questions, and an "arguably" realist presentation of discovery. Combined, these elements will keep children engaged and support their learning. |

Jacob is so small for his age he often repeats himself just so he can be heard. His parents are compassionate, but his siblings are not, and Jacob has to be resourceful and inventive in learning how to assert himself, overcome his fears, get along with others, and still enjoy his childhood. He manages to turn even the most inconsequential events into adventures with his friends, Buford and Renee. Every adventure teaches him a life lesson, from learning how to be responsible to figuring out how to manage a bully. In addition, there are implicit lessons that promote a love for learning and language development usually conveyed through Jacob's father, a full-time writer. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Pearlie is an animated comedy series based on the children's book series, Pearlie the Park Fairy by Wendy Harmer. Pearlie is an optimistic, light hearted fairy who sees the good in everybody, but often gets into situations because her desire to help is larger than her capacity to deliver. Aimed for an audience within the 6 to 10 year old range, episodes focus on the importance of following the rules, using good judgment and learning how to avoid getting into trouble. Since Pearlie was appointed by Fairy Head Quarters to keep Jubilee Park in sparkling order, she has constant challenges with her basic goal of keeping everyone happy and making sure the park functions smoothly. Pearlie's nemesis and cousin, Saphira, often takes advantage of Pearlie's good nature which requires that Pearlie must also frequently outwit the park bully. In each episode, Pearlie approaches new tasks and problems with a great deal of enthusiasm, but without the organization required to get the job done. Through plot developments and with the assistance of her friends, Opal and Jasper, she learns what to do and what not to do in each situation so the park can be restored to order. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Willla is an animated series centered on a six-year-old girl, and her menagerie of animals. Willa lives at home with her father and pets: an elephant, a giraffe, a pair of performing seals, a bear, penguins, and lots of rabbits. In each episode, Willa faces a challenge at home, in school or in her neighborhood. With her animals and best friend Dooley as key elements of her team, Willa works on solutions to overcome her challenge. Together they find way to maintain healthy friendships, experience success, develop competence and become altruistic. With help from her animal friends, Willa figures out how to earn the things she wants by helping others. She learns to appreciate the friends that she has rather than trying to change to fit in with the "cool" group. She realized that asking questions is better than jumping to conclusions. Whether at school, home or in the neighborhood, Willa finds a way to analyze her situation and learn from experience. |
