Digital Core Program (1 of 14)	Response
Program Title	Cubix: Robots for Everyone
Origination	Network
Days/Times Program Regularly Scheduled	Saturday at 7:00am
Total times aired at regularly scheduled time	13
Total times aired	
Number of Preemptions	0
Number of Preemptions for other than Breaking News	
Number of Preemptions Rescheduled	
Length of Program	30 mins
Age of Target Child Audience	6 years to 11 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Cubix Robots for Everyone takes place in the year 2040 in Bubble Town where robots outnumber humans. The series centers around a 13 year old boy named Connor, his robot Cubix, and the members of a special club known as Botties. Each member of the Botties has their own robot with a unique characteristic. The robots are friendly, efficient and function in imaginative ways to help make Bubble Town a great place to live. But it's a good vs. evil world and Connor and the Botties learn lessons of right and wrong, teamwork, courage and problem solving during their adventures to thwart Dr. K.'s evil schemes to take control of Bubble Town's robots. Each member of the Botties faces life scenarios that commonly affect children today - feeling sad and alone, insecure and vulnerable, fear of failure, and overcoming uncertainties and phobias. Whether it is Connor facing a difficult initiation task in order to join the Botties, Chip dealing with his insecurities because he isn't as tall as the others, Charles' bragging, Cubix being blamed for something that he didn't do; Endruix' stage fright, or Antonio's jealousy during a competition that leads him to act like a spoilsport, the Botties face the same reallife conflicts and fears that children face. Throughout the entire series, the Botties learn important lessons about themselves including self-confidence, courage, loyalty, patience, humility and pride but they also learn the importance of perseverance, teamwork and embracing their differences to overcome obstacles. These lessons resonate as the Botties work together to defeat Dr. K. and his evil schemes. In order to best develop the skills and values that will produce socially conscious and productive future adults, fostering social and emotional competencies in our children is crucial. Social and emotional skills -- such as confidence, courage, loyalty, teamwork and problem solving -- provide an important knowledge base upon which appropriate behaviors can be developed. Imaginary environments provide children with a safe mechanism to witness these "pro-social" behaviors. Cubix provides just such a framework. The series tackles life scenarios that commonly affect children today. The educational objectives of Cubix include the reinforcement of age appropriate interpersonal skills, the development of self-confidence, courage and personal responsibility. Cubix exposes children to these lessons within an entertaining, non-threatening imaginary environment. The Botties and their robots tackle personal and community adversities in creative story lines. Within this framework, children can see age-appropriate problem-solving strategies and learn to model the appropriate behavior. Through the Botties' experiences, viewers learn to overcome self-esteem and social competency issues, demonstrating to children that self-confidence, courage and resilience are necessary tools for problem solving and establishing good interpersonal relationships. Moreover, the characters inspire and promote altruistic behaviors, such as community participation, support, resilience, tolerance and leadership skills.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	It's a nature series that takes a fascinating look at animal behavior in the wild. It has an extraordinary panorama of stories, highlighting wildlife such as black bears, moose, coyotes, turtles, cougars, etc. These compelling tales unfold in beautiful landscapes around the world. This program is educational and intended to inform children 13-16 years of age. It airs at 8am Mondays through Saturday, 30 minutes in length. The series is an award winning wildlife program of up-close looks at where civilization and wilderness meet, revealing both the best and worst of the laws of nature and teaching children about animals and the environment.

Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	9th PERIOD is a weekly half-hour drama series for teens that teaches positive consequences of thought and action when combined with friendship's effective influences. This series is comprised of three friends who meet every day after school to discuss the day's events. Their exchanges are witty and on par with the subject matter of the social interaction that today's children experience. Three friends are more than friends, they are amateur sleuths. Each show presents a mystery that the children solve by the end of that show. Problem solving, working together toward a common goal, ethics, and morals are conveyed through the thoughts, words, and actions of these three characters: Peyton, Connor, and Meg. Every child will see him/herself in these characters. Peyton, Connor, and Meg share their daily trials and triumphs as they face the following together: bullies-both cyberspace and in your face- thievery, learning difficulties, family conflicts, adversity in and out of the classroom, homelessness, hidden agendas in places as small as the schoolyard to their favorite restaurant, and as large as the town itself.

Program Title	Magi-Nation
Origination	Network
Days/Times Program Regularly Scheduled	Saturday at 7:00am
Total times aired at regularly scheduled time	13
Length of Program	30 mins
Age of Target Child Audience from	7 years to 12 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	<p>For young people today, new information is generally no more than a mouse-click away. Knowledge is readily there for the taking if kids simply know how to appropriately access it and effectively make use of it. In this context, many of the most useful and important things that youngsters can learn center on discovery, analysis and problem-solving how do kids get the "right" information and make proper use of it. What questions should be asked? How does one assess veracity? How does one weigh alternatives? How are decisions best arrived at? How does one decide when aims can be accomplished independently, and if help is needed, how does one go about enlisting support? Above all, how can goals be achieved ethically and with regard to the greater good. In an enticing new world filled with excitement, mystery, and danger, "Magi Nation" addresses these vital learning goals. Tony, Edyn and Strag along with their human and decidedly non-human colleagues model their successful, and sometimes less than successful, attempts to analyze difficult situations, set appropriate goals, and creatively seek solutions to the dire dilemmas in which they find themselves. In the course of a series of intriguing codes, riddles and other puzzles that Tony, Edyn and Strag are presented with along the way, viewers are furthermore given the engaging opportunity to not only observe others go through the problem solving cycle, but to make use of their unique knowledge base and burgeoning problem solving skills to address conundrums on their own. The specific educational objectives are to help viewers learn to thoughtfully assess situations and logically set appropriate and responsible goals, To aid viewers to develop techniques associated with critical thinking and creativity in decision-making and problem solving with which to act, To encourage viewers to attain the independence and initiative to act on what is ethically right, and the determination and persistence to carry their aims through to fruition - even in the face of opposition, To teach viewers to accept and appreciate unique abilities and insights in themselves and others, and to employ teamwork to capitalize on individual strengths and overcome individual weaknesses, to encourage viewers to assimilate positive personal qualities, prosocial behaviors and life skills intended to better equip them to take responsible and functional roles within their environment, to increase viewers' core knowledge base and appreciation of the world around us by presenting information across a range of academic areas, including mathematics, language, earth science, ecology, botany, geography and meteorology.</p>

Program Title	Profiles of Nature - (DT-3)
Origination	Network
Days/Times Program Regularly Scheduled	Monday - Saturday 8:00am
Total times aired at regularly scheduled time	78
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	It's a nature series that takes a fascinating look at animal behavior in the wild. It has an extraordinary panorama of stories, highlighting wildlife such as black bears, moose, coyotes, turtles, cougars, etc. These compelling tales unfold in beautiful landscapes around the world. This program is educational and intended to inform children 13-16 years of age. It airs at 8am Mondays through Saturday, 30 minutes in length. The series is an award winning wildlife program of up-close looks at where civilization and wilderness meet, revealing both the best and worst of the laws of nature and teaching children about animals and the environment.

<b>Other Matters (14 of 14)</b>	<b>Response</b>
Program Title	9th Period
Origination	Syndicated
Days/Times Program Regularly Scheduled	Sunday at 7:00 am
Total times aired at regularly scheduled time	13
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	9th PERIOD is a weekly half-hour drama series for teens that teaches positive consequences of thought and action when combined with friendship's effective influences. This series is comprised of three friends who meet every day after school to discuss the day's events. Their exchanges are witty and on par with the subject matter of the social interaction that today's children experience. Three friends are more than friends, they are amateur sleuths. Each show presents a mystery that the children solve by the end of that show. Problem solving, working together toward a common goal, ethics, and morals are conveyed through the thoughts, words, and actions of these three characters: Peyton, Connor, and Meg. Every child will see him /herself in these characters. Peyton, Connor, and Meg share their daily trials and triumphs as they face the following together: bullies-both cyberspace and in your face- thievery, learning difficulties, family conflicts, adversity in and out of the classroom, homelessness, hidden agendas in places as small as the schoolyard to their favorite restaurant, and as large as the town itself.
