Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Astroblast!, based on the book series "Astroblast!" by author and illustrator Bob Kolar, is set on a space station in an unknown solar system. The station is populated by five animal characters and one 3-eyed octopus of unknown derivation. Each episode begins with an everyday conversation or incident that grows into a predicament of some sort needing a solution. While these predicaments take place on a space station populated by animal characters and aliens from different galaxies, the issues and resolutions resonate for a preschool audience. Through comedy and zippy action, our target audience sees how the characters learn lessons for practical living such as how to: keep track of things that belong to you, practice good habits, clean up a space when you've made a mess, rebound from a failure or embarrassing incident, or resist the urge to blame others for your mistakes. In compliance with the Children's Television regulations, "Astroblast!" features an on-air icon indicating that each program is "educational and informational" for children. Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The Chica Show features a five-year-old "baby" chick that spends her days with her parents in their costume shop, the Coop. The shop's one employee, Kelly, doubles as Chica's nanny and the ensemble is rounded out with Bunji, a large floppy eared rabbit, and Stitches, a straw mannequin that sits in the window. In each episode Chica develops or encounters a problem that she cannot immediately resolve. Usually her issues involve impulse control, distractibility, judgment, and inter-personal behaviors. She and Kelly usually work on the problem through an adventure-a fantasy transformation to animation- where Bunji and Stitches come alive and join Chica and Kelly for the problem solving process. The core educational content is primarily socio-emotional development as Chica learns how to express herself properly, think before she acts, and interact with others effectively. She often learns that it takes hard work and practice to become proficient at different skills. In compliance with the Children's Television regulations, "The Chica Show" features an on-air icon indicating that each program is "educational and informational" for children. This "E/I" icon is displayed throughout each broadcast, as well as identified to program listing services.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Tree Fu Tom is a live action/animated series about a little boy who lives in a rural area, yet has a rich fantasy life in the woods behind his home. Tom uses specific movements to summon up magic powers that permit him to morph into an animated hero and fly around in Treetopolis, the fantasy version of his woods. While in Treetopolis, Tom and his friends, Ariella, Twigs, Squirmturn and Zigzoo will invariably run into a problem or disaster that needs fixing. Tom calls upon the audience to practice original dance moves that will bring him "Big World" magic so he and his friends can resolve their challenge of the day. Educational messages reinforce positive socio-emotional content, with examples that model: being loyal to good friends, knowing how to ask for help, doing the right thing instead of what is convenient, making the effort to share rather than being selfish and relying on teamwork in order to accomplish a goal. Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	<p>Lazy Town encourages fitness and healthful habits for preschool children. In the imaginary setting of Lazy Town, characters' eating and fitness habits are linked to problem solving in their world. The lead character is Stephanie, a young girl who guides the audience through the story as she and her friends ("human" puppets) and her Uncle (Mayor Milford Meanswell) navigate life within Lazy Town. Robbie Rotten, the underground spy and influencer who personifies the ethos of Lazy Town, is determined to ruin the health and fitness practices of Stephanie and her friends. When the kids have difficulty with Robbie Rotten, Sportacus (a gymnast/athlete prepared to answer any call for help) comes to the rescue from his home in a zeppelin-like aircraft that hovers over earth. The underlying themes of Lazy Town stress the importance of eating "sports candy" (aka fruits and vegetables), always obtaining sufficient sleep, and going outside to engage in a wide range of physical activities that include playing games, competing athletically, and even building forts and play structures. In compliance with the Children's Television regulations, "Lazytown" features an on-air icon indicating that each program is "educational and informational" for children. These are big issues in the mind and life of a preschool child and Zou demonstrates how to have fun, ask for help, listen to advice, and try different solutions until he can commit to the strategy that works. Include any other comments or information you want the Commission to consider in evaluating your compliance with the Children's Television Act (or use this space for supplemental explanations). This may include information on any other noncore educational and informational programming that you aired this quarter or plan to air during the next quarter, or any existing or proposed non-broadcast efforts that will enhance the educational and informational value of such programming to children. See 47 C. F.R. Section 73.671, NOTES 2 and 3.	"The More You Know's" comprehensive website (themoreyouknow.com) provides in-depth referral information, in connection with the on-air public service announcements. Content includes: video of all current public service announcements, a general campaign overview, message boards, kids' pages and referral information by topic to partnering agencies referenced in the PSAs. The site includes a comprehensive list of the campaign's accolades, including Emmy and Peabody awards. In addition, a behind-the-scenes story with clips from talent interviews can be viewed. Wilmington, NC, was selected as the first United States television market to broadcast entirely in digital. This early transition took place on September 8, 2008. Being within the Wilmington, NC, market, WECT was one of the stations to take part in the early digital transition. On September 8, 2008, WECT ceased its analog signal and converted to digital. Since September 8, 2008 WECT has operated as a digital-only station. This FCC 398 was filled out based on the fact that WECT no longer has any analog programming. Therefore, question 10 reports all of our main digital channel programming, as well as our multi-cast digital channel programming. Also, since WECT ceased analog operations and converted to digital-only operations prior to the start of the reporting period, Questions 7(b) and 7(c) are no longer applicable. On 9/26/11, WECT's digital multi-cast channel changed from WECT Plus, to Bounce Wilmington. It was decided that our preempted NBC kids programs from 9/27/14 (due Ryder Cup Golf) would be best made good on 10/5 & 10/12 (outside 3rd Qtr)in order to keep them closer to the original preempt date. Accordingly, the make goods rescheduled to 10/5 were included in the 3rd Q Form 398 since that report was not filed until 10/10. The make goods rescheduled to 10/12, however, are included in this 4th Q Form 398 report and the calculation of the weekly average for the main channel. Since the station reported an unrounded weekly average of 2.846 hours on its main channel for the 3rd Q and a 3.15 weekly average for the 4th Q, the station is able to certify that it has been able to maintain a 3.0 weekly average over the course of the six month period spanning the 3rd and 4th Q's. We added the Escape Channel as a second multicast channel. We went on the air with that channel (44.3) on 10/15/14 at 11am.
